DRIVER INFORMATION ACCESSORIES

200

VOLVO

SERIES

The standard instrumentation in a Volvo 200 Series car is extremely comprehensive, with its layout of warning signals and reminders. But for those drivers who like to have even more information available Volvo have made special provision in the dashboard for up to four additional instruments to be fitted.

Instrument Panel

To house 52mm extra instruments you can choose from the three-instrument panel illustrated, or a single-instrument panel.

Part Numbers:

3-instrument panel 1129662-1

1-instrument panel 1259730-8

Oil Pressure Gauge

This gauge indicates oil pressure in 'bars'. At normal engine temperature the pressure reading should be 2.5-3 bars. A very useful instrument which gives early warning of possible engine problems before they turn into expensive faults.

Part Number: 1129315-6

(NB. For fitment to 260 models, an adaptor is required.

Part Number : 464592-5)

Voltmeter

A voltmeter indicates battery voltage giving you an instant check on the condition of charge. This is particularly important during the winter months when you will be making much greater use of heavy current consuming equipment such as headlights, heater or heated rear screen.

Part Number: 1129314-9

Ambient Temperature Gauge

The ambient temperature gauge gives you a reading of the temperature in front of the car via a small sensor fitted under the front bumper. In addition to the needle, a red light warns when temperatures are around zero, giving early warning of possible icy conditions.

Part Number: 1129311-5

Vacuum Gauge

A vacuum gauge is especially valuable as fuel costs rise. It gives you an at-a-glance picture of how fuel-efficiently you are driving.

Part Number: 1129312-3

Oil Temperature Gauge

An oil temperature gauge can give you earlier warning than the coolant temperature gauge of potentially damaging overheating problems caused, for example, by too-hard driving or low oil level.

Suitable for 240s only.

Part Number: 1129316-4

CHILD SAFETY ACCESSORIES

2000

VOLVO

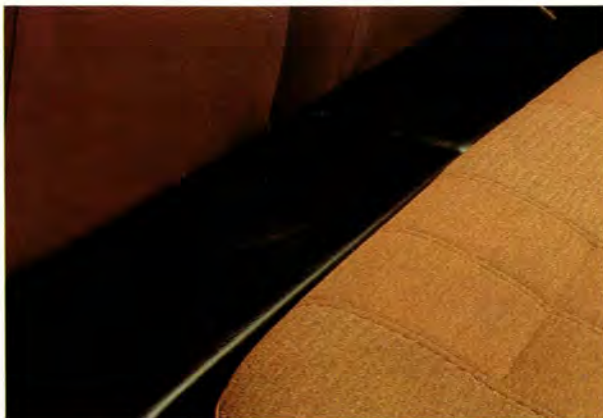

SERIES

Cars are designed primarily for adults, but at Volvo we believe that young children, too, have the right to travel in comfort and safety. That means they should always travel in a proper child restraint system. The emphasis Volvo has placed on child safety is one reason for an enviable reputation as one of the world's safest cars.

Volvo child safety equipment has been developed through years of research and thousands of special tests and experiments. When you remember the latest official figures show that in Britain in 1979 nearly nine thousand children were killed or injured in cars, would you settle for anything less for your child?

Crash Testing

The test shown here, part of a continuous and detailed child safety research programme, illustrates all too clearly what happens to an unrestrained child in a crash. In a head-on collision at 31 mph a child weighing 44 lbs will be thrown forward with a force of nearly 2 tons.

Child Bench

The bench fills the gap between one of the front seats and the rear seat. It enables the baby's carrycot to be positioned against the back of the front seat.

Part Number: 282441-5

Carrycot Restraint

An alternative to the child bench is the carrycot restraint. Two straps fixed to the body of the car circle the carrycot to hold it in position against the back of the rear seat.

*Part Numbers: 244/264 40000814-0,
245/265 40000815-7*

Child Safety Seat

The KL Jeenay safety seat has been for many years the leading child safety seat on the UK market. The latest B18 model has a higher back for extra head and neck protection, deep wings for extra head protection and new wider webbing to spread load more evenly and reduce the risk of strap burns when the child is in light summer clothes. The luxurious simulated lambswool trim is cool in summer and warm in winter and is easy to remove for washing.

Part Number: 40000884-3

Child Safety Cushion

A product of the Volvo child safety research programme, the child safety cushion enables the six to twelve year old to use the standard adult three point seat belts by preventing "underslide". The cushion is held in place by the seat belt.

Part Number: 1188206-5

Child Guard

In certain circumstances it may not be possible to use the child restraint system, so Volvo offers the child guard. It attaches to the back of the driver's seat and prevents an unrestrained child from being thrown forward between the seats by heavy braking.

Part Number: 283667-4

Extra Rear Seat

An extra rear seat turns your Volvo estate into a seven seater. The rearward facing seat, suitable for children, is equipped with head restraints, three point seat-belts and armrests. It is upholstered in easy-to-clean, fire-resistant, black or beige vinyl. When not in use it folds away under the cargo area floor.

Parts Numbers: Black 1128799-2,
Beige 1128439-5

TOWING ACCESSORIES

2000

VOLVO

SERIES

Look in front of any caravan, boat-trailer, horse box or even a glider trailer and quite often you'll find a Volvo. The reason is of course that Volvo cars are designed and built to withstand the wear and tear which towing work involves. But Volvo doesn't stop there. We also supply a full range of towing equipment tailored to the Volvo car.

Tow Bar, rigid

A superbly engineered, fixed ball, tubular steel tow bar developed specifically for the Volvo 200 Series. Its capacity is 3300 lbs (1500 kg).

Part number 1129095-4

Tow Bar Wiring Kit

The Volvo tow bar wiring kit contains everything you need to conform with legal requirements. The seven pole socket has a special 'cut-out' device which enables the caravan's rear fog lights, where fitted, to be used without the car's rear fogs, preventing distracting glare-back from the van. A supplementary kit is also available to take power to the caravan when the seventh pole on the main socket is needed for rear fog lights.

Part number Wiring Kit 40000848-8

Supplementary Kit 40000851-2

Tow Bar, retractable

When not in use the tow ball arm can be swung away under the bumper out of harm's way. A powerful locking system holds the ball arm securely in place for towing. The bar's capacity is 3300 lbs (1500 kg).

Part number 1129096-2

Caravan Spoiler

Ideal for all cars but especially for Volvo estates, the roof spoiler significantly reduces the wind resistance and improves the directional stability of the whole rig. Wind tunnel tests show a reduction in wind resistance of as much as 28%. The spoiler is mounted on one of the bars of the load carrier.

Part numbers Spoiler 1128898-2, Carrier 1129657-1

Load Carrier

Two sturdy, plastic-coated, steel tubes with strong gutter attachments. The load carrier can be complemented with ski holders and/or extension rails for wide loads. The bars are supplied individually.

*Part numbers Load Carrier 1129657-1,
Ski holders 283278-0, Extension Rails 283277-2*

Caravan Mirror

The Volvo caravan mirror affords an excellent, stable rear view and is quick and easy to fit to either wing without drilling the bodywork.

Part number 284525-3

Levelling System

Volvo levelling systems restore the car's normal level, comfort and stability, preventing your car from 'bottoming' on rough road surfaces and your headlights from dazzling oncoming drivers. Equally important, it maintains the car's original handling characteristics. Two versions are available. The automatic system is controlled from a compressor in the boot to inflate or deflate special rear shock absorbers. The semi-automatic version uses the same shock absorbers, but in this case compressed air is obtained from an external air line via a connection in the boot.

*Part numbers Automatic 283631-0,
Semi-automatic 283632-8*

Caravan Shock Absorbers

For less demanding towing work sprung shock absorbers firm up the rear suspension. They are supplied singly but should be fitted as a pair.

Part number 283088-3

VOLVO

SAFETY AND PRACTICAL ACCESSORIES

200

VOLVO

SERIES

There are many small items which are frequently overlooked, but which can contribute significantly to safer or easier motoring. Volvo has not forgotten them, as you can see from our range of safety and practical accessories.

First Aid Cushion

A comprehensive first aid kit neatly packed in a 13in. x 10in. cushion.

Part Number: 1575501-0

Fire Extinguisher

A highly effective powder extinguisher complete with pressure gauge. Refills are available.

Part Numbers: Fire Extinguisher 1128797-6, Refills 1128804-0

Warning Triangle

A valuable road safety item, and essential if you drive on the Continent. It meets European safety standards.

Part Number: 283343-2.

Jump Leads

A useful insurance in case of a flat battery.

Part Number: 282972-9

Anti-skid Chains

Fitted to the rear wheels, these strong chains improve wheel grip on ice, snow, slush or even wet grass. They are supplied as a set for both rear wheels.

Part Numbers: 244/264 1129010-3,
245/265 1129011-1

Round Fuel Can

A 5-litre metal can which fits neatly and securely in the spare wheel.

Part Number: 1128441-1

Locking Tank Cap

A lockable tank cap prevents theft or contamination of valuable fuel.

Part Number: 1129133-3

Burglar Alarm

To protect your car the doors, bonnet and boot lid/tailgate are wired to a special siren. The system can be switched off when the car is being serviced.

Part Number: 1128746-3

Boot Lock Remote Control

A control button fitted in the glove box enables you to open the boot without leaving the driving seat.

Part Number: 1129317-2

GT Shock Absorbers

Gas-filled shock absorbers enhance the stability of the car without reducing ride comfort. Supplied singly, they should be fitted as a set of four.

*Part Numbers: Front 1128793-5,
Rear 1128794-3*

Bulb Kit

Spare bulbs and fuses for essential lights packed in a shock-proof case.

Part Number: 40000835-5

Round Auxiliary Lights

186 mm diameter round auxiliary lights are supplied in complete kits. The kit includes a pair of fog or spot lights, halogen bulbs, a switch, the necessary wiring and fitting brackets with anti-vibration struts.

*Part Numbers:
Spot Light Kit 1129276-0,
Fog Light Kit 1129277-8*

Rectangular Auxiliary Lights

Rectangular fog or spot lights are also available in complete kits including halogen bulbs, a switch, wiring and fitting brackets.

Part Numbers: Spot Light Kit 1129280-2, Fog Light Kit 1129281-0

STOWING ACCESSORIES

2000

VOLVO

SERIES

Volvo cars are not just comfortable, safe and reliable. They are tough, strong and hard working. Saloon models and particularly estates have an enormous load-carrying potential.

To help you make the most of your Volvo's carrying potential, we offer a range of genuine Volvo stowing accessories.

Estate Roof Rack

A superb all-aluminium rack with a huge 80" x 46" load platform. It is light and easy to handle, weighing only about 25lbs, and the front edge is fitted with a spoiler to minimise wind noise and resistance. Its capacity is 220 lbs (100 kg).

Part number 1129660-5

Saloon Roof Rack

A smart, strong rack of aluminised steel tubing with steel profiles treated with epoxy rust inhibitor and fitted with quick action gutter attachments. The load platform is a generous 40" x 38½" and the rack only weighs a little over 14 lbs. Its capacity is 165 lbs (75 kg) for 200 Series.

Part number 1188728-8

Cargo Mat

A black, acid- and fire-resistant mat which protects the floor of the estate car cargo area from damage. The fluted finish helps to prevent the cargo sliding. A mat is also available for the boot of saloon cars.

*Part number Cargo Mat 283539-5,
Boot Mat 1128444-5*

Load Cover

A plastic-coated, fabric cover to conceal from prying eyes valuable cargo being carried in the back of a Volvo estate car. It fits behind the rear seat and pulls out of its aluminium case on the same principle as a roller blind, hooking onto the rear pillars.

Part number 1129025-1

Cargo Straps

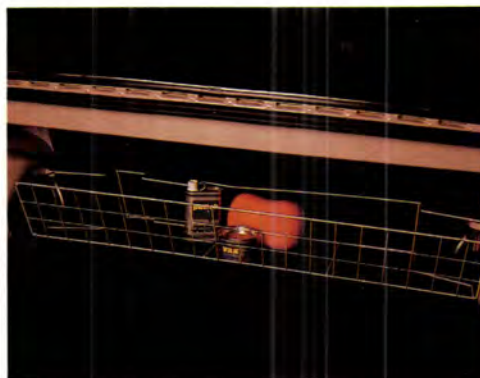

Straps for holding down cargo in the back of an estate car. They clip to brackets which are standard in the car.

Part number 1129004-6

Boot Basket

For the boot of saloon models, the boot basket is ideal for neat and tidy storage of small items.

Part number 281110-7

Dog Guard

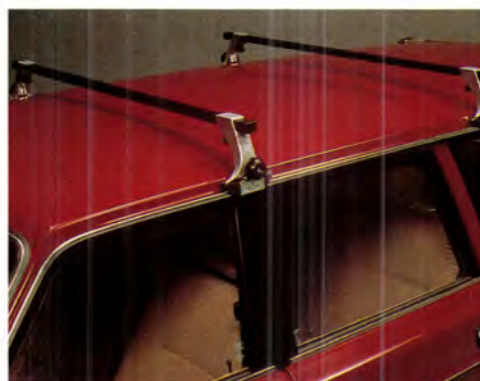

This plastic-coated steel dog guard turns the cargo area of an estate car into a mobile kennel. The guard can also be used to prevent luggage being thrown forward when braking hard. It fits behind the front or rear seats and can be easily removed and re-installed.

Part number 2833233-5

Load Carrier

Two sturdy, plastic-coated, steel tubes with strong gutter attachments. The load carrier can be complemented with rubber straps and/or extension rails for wide loads. The bars are supplied individually.

Part numbers Load Carrier 1129657-1, Rubber Straps 283278-0, Extension rails 2833277-2

Allround Box

A versatile carry-all with innumerable uses for all the family. Measuring 20" x 14 1/4" x 9 7/8" when opened out, it folds down to 2 1/4" x 14 1/4" x 9 7/8". Voted one of Motor magazine's Top Ten Accessories for 1980.

Part number 1128721-6

VOLVO

EXTERIOR TRIM ACCESSORIES

2000

VOLVO

SERIES

Volvo 200 Series cars are exceptionally well equipped, but you can discreetly "personalise" your Volvo from our range of exterior trim accessories.

Bumper Stripes

Self-adhesive bumper stripes which reflect light at night. An attractive accessory with a strong safety element. The set contains a white stripe for the front and a red stripe for the rear.

Part number 1129633-2

Body Stripes

Smart, self-adhesive, 'coach-line' style stripes with optional 240 model motif included in the kit. Without the motif the kits also fit 260 models. They are available in brown, silver or blue/red.

*Part numbers Brown 1129246-3, Silver 1129247-1,
Red/Blue 1129248-9*

"Sunburst" Alloy Wheel

A 5½J x 14". Sunburst design, 25 spoke, polished aluminium alloy wheel (standard fitting on 1982 260 models). It is available with a choice of small or large hubcap (supplied separately).

*Part numbers Wheel 1128730-7,
Large hubcap 1129031-9,
Small hubcap 1129021-0*

"Turbine" Alloy Wheel

Standard on the 1982 model 240GLEs and 245GLTs, the 20 spoke "Turbine" style alloy wheel offers an attractive alternative to the "Sunburst" wheel. The "Turbine" is also 5½J x 14".

Part number 1128493-2

Roof Wind Deflector

This elegant, smoke grey, roof wind deflector, suitable for all 200 Series models with a factory-fitted sun roof, channels the slipstream to reduce draught and wind noise.

Part number 283982-7

VOLVO

accessories with standards

COMFORT ACCESSORIES

VOLVO 200

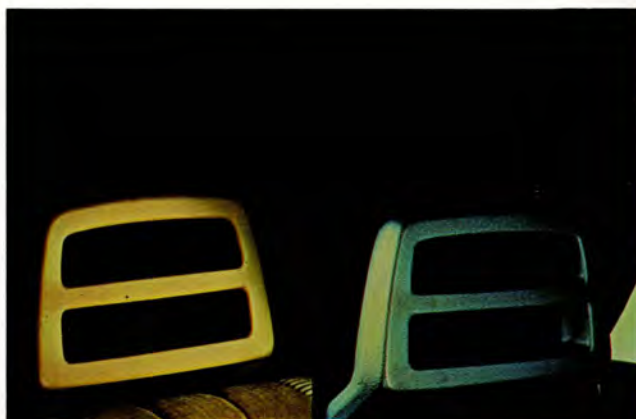

SERIES

The 1982 Volvo 200 Series offer the best ever specifications. The legendary Volvo seat, the cloth, leather or plush upholstery, the thick-pile fitted carpeting and the incomparable Volvo heating system ensure that driver and passenger ride in comfort.

Volvo also offers a range of accessories for the motorist who wants to add that extra touch of luxury.

Senator Seat Covers

Volvo's range of luxury, tailored seat covers are faced with high quality, plush material with nylon velour side and rear panels for easy fitting. They are supplied in complete sets for front and rear seats in a choice of brown, beige, blue or black to complement the interior trim.

Rear Head Restraints

Rear head restraints (standard on the 264 GLE) match the standard front head restraints and are available for 244 DL, GL, GLE and GLT models in brown, beige, blue or black.

Head Restraint Cushions

Tailored foam-padded cushions turn the head restraint into a comfortable head-rest. They are available for front and rear, singly to match the standard upholstery or in pairs to match the Senator seat covers.

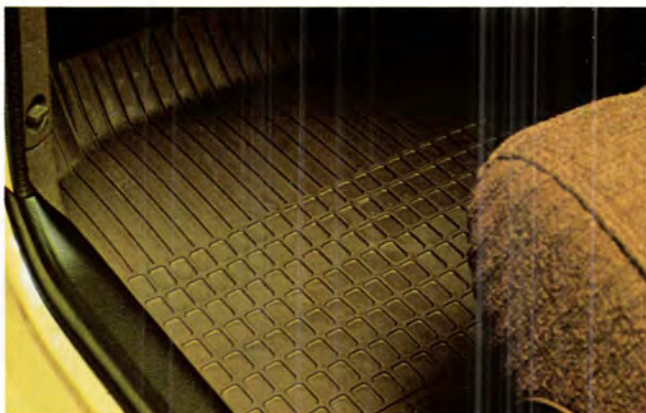

Rear Sun Blinds

Rear window sun blinds protect rear seat passengers in 200 Series saloon cars without impeding the driver's rear view. They are standard equipment on the 264 GLE.

part number 1128304-1

Floor Trays

Injection moulded thermoplastic floor trays protect the fitted carpeting. Their raised edges prevent dirt and water getting under them and their tailored fit and spined base effectively anchor them in place. They are supplied in complete sets for front and rear in a choice of brown, beige, blue or black to complement the interior trim.

Electric windows

The luxury of electric windows (standard on the front of 240 GLE and GLT models and all round on 260 GLE models) is also available as an accessory for 240 DL and GL models.

*part number 283595-7 (front)
1128388-4 (rear)*

Electric Door Mirrors

Electric door mirrors (standard on 240 GLT and 260 GLE models) give instant adjustment via a toggle switch. The anti-dazzle glass is housed in a black, vibration-free frame which can be fitted without drilling the bodywork.

*part number 283179-0 (left)
283180-8 (right)*
