

VOLVO

1979 ACCESSORIES

VOLVO . . . Quality Accessories for the Quality Car

Basically speaking, any car will provide transportation from place to place. However VOLVO isn't just any car. And the VOLVO owner isn't just the average car buyer. The VOLVO owner is explicit in his needs and demands from his car. VOLVO engineers and designers are well aware of this and plan every VOLVO and every VOLVO accessory with just that thought in mind.

Whether the accessories you choose to complement your VOLVO are for comfort — to be functional — or just to enhance the car's good looks, you can do so with confidence . . . confidence that each and every accessory has been given the same attention to detail and engineering excellence as the VOLVO automobile itself. And, of equal importance, every accessory offered in this brochure has been designed to fit the wide variety of personal driving needs . . . so we might say — they fit you as well as they fit your VOLVO.

Needless to say, not every accessory you select will be in use or needed constantly. But you can be secure in the knowledge that when you call on one of VOLVO's accessories to perform, perform it will in exactly the precision maneuver for which it was engineered and produced.

Before you go any further, please reflect on all the ways you'll be using your VOLVO. Like a good reporter/researcher, consider the who, what, when, where, how, and why of your driving. Reflect also on any and all significant driving experiences you've had both good and bad. Then weigh each of the accessories detailed here and determine those which would have been advantageous had you had them then. This exercise will be time well spent.

You've already decided that VOLVO is the best value for your money and now you are ready to decide which accessories offer you that same value.

This VOLVO Accessories Brochure is divided into Accessory categories for your convenience. Starting from the front of the book, you can find accessories that will make one of the world's safest cars just a little more so in the SAFETY AND ANTI-THEFT ACCESSORIES section on page 3.

You can select the audio components that will suit your listening taste in the AUDIO ACCESSORIES section on pages 4 and 5. There's even an AM/FM stereo cassette deck for the finest in listening pleasure.

If you're looking for a little flair as well as increased handling performance, we suggest you look at pages 6 through 9. There, you will find a complete line of VOLVO GT/SPORT ACCESSORIES.

We even have a varying array of special WEATHER ACCESSORIES on pages 10 and 11 because we know you'll be driving under varying weather conditions.

And while you're driving, if you happen to be carrying some bulky cargo or a month's worth of luggage for a week's worth of vacation, or a couple of extra kids, you'll find the answer to your problems in the TRAVEL, TOWING AND LOAD CARRYING ACCESSORIES section between pages 12 and 15.

But even if you're just doing around the town driving, we haven't overlooked your need for some accessories that will make run of the mill driving more comfortable and convenient. See the COMFORT AND CONVENIENCE ACCESSORIES section on pages 16 through 19.

And once you're finished driving for a day, you can help make sure your VOLVO will look good and run well with the VOLVO CARE AND MAINTENANCE ACCESSORIES like those described on pages 20 and 21.

And finally, we haven't forgotten you personally either. On page 22, we've provided some PERSONAL ACCESSORIES that will let you display your pride in VOLVO ownership.

To display our pride, we offer a 12 month Limited Warranty as standard equipment with every VOLVO Accessory. It covers replacement or repair caused by defects in workmanship or material for 12 months from date of purchase or installation, including all labor charges if originally installed by a VOLVO dealer. (See your VOLVO dealer for exact warranty stipulations.)

We can make this warranty offer because every VOLVO Accessory is designed, engineered, and manufactured to stringent quality control standards — VOLVO standards.

See pages 23 through 25 for a complete listing of available VOLVO Accessories for model years 1967 through 1979.

Safety and Anti-Theft Accessories

Your security and safety are two of the uppermost thoughts in our minds. For this reason VOLVO has been a leader in designing innovative safety and security systems. Some of these systems — standard equipment on every VOLVO — are four wheel disc brakes, split triangular braking systems, roll cage reinforced passenger compartments, inertia rear seat belts, and a dashboard signal light indicating the failure of any outside light.

Since so much is already built in, we have only two safety accessories and two new anti-theft accessories to offer. They give you just that much more protection.

SAFETY

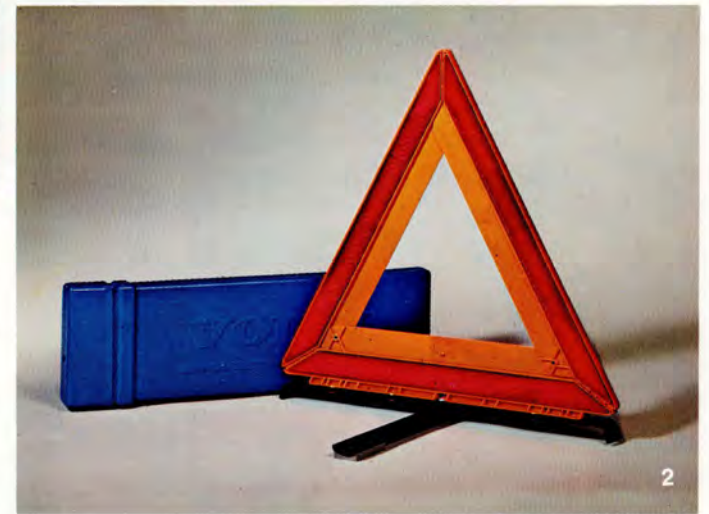

1. Child Guard — Constructed of shock-absorbing foam plastic with tubular steel reinforcement, this safety device is mounted to the back of the driver side seat frame through pre-drilled holes. It prevents your child from being thrown forward between the front bucket seats in the case of an emergency stop. For those children that don't always stay buckled-up!

2. Warning Triangle — This handy roadside warning device is made of a reflective, light-sensitive, luminous plastic. When not in use it folds flat for convenient storage in its own carrying case. Usage and road placement information are permanently illustrated on the translucent case which also can serve as a flashlight "sleeve" to signal oncoming cars.

ANTI-THEFT

3. Burglar Alarm — Another innovation for 1979, this loud shrill horn is connected to all the doors, the hood, and the trunk. If they are opened the alarm will sound if a key is not placed in the ignition or if the device is not deactivated within 15 seconds. It mounts easily with no drilling or screwing on the exterior bodywork.

4. Lockable Wheel Nuts — These nuts are the latest innovation in auto security. They are constructed of chrome steel and will remain unaffected by road dirt and salt. They have registered serial numbers and are backed up by a nationwide service organization. They come in sets of four — one for each wheel. Each set contains a wrench socket.

For the Audiophile

VOLVO audio equipment stands apart. When you select one of these fine accessories you receive a unit that has been designed to meet the most demanding audio needs.

1. Electric Antenna — A convenient dashboard switch operates this remote control antenna or the electric antenna operates automatically when used with the AM/FM Stereo Cassette. Tucks neatly into the rear fender.

STEREO/AUDIO

Surround yourself in stereo sound. Enjoy your VOLVO sound as much as you would enjoy sound in your own home. Door mounted stereo speakers are standard in your VOLVO. And VOLVO's integrated installation helps prevent theft.

2. AM/FM Stereo Radio Cassette — Specially designed for VOLVO, this AM/FM Stereo is combined with a four track cassette to give you the exact programming you desire.

The new cassette player automatically changes tape direction at the end of a side and also features a manual reverse to let you change sides at any time. The cassette will also fast wind in either direction for ease of selection and has twin sensors to prevent tape tangle. Automatic push button selection for five favorite stations.

3. AM/FM Stereo 40 Channel CB — This integrated 40 Channel CB with AM/FM stereo is the ultimate in mobile audio equipment. You will be able to monitor traffic conditions, get help fast in roadside emergencies, or just have fun talking with other CB'ers.

VOLVO's unique RA/CB selector switch allows you to listen to AM or FM in the RA position, transmit or receive in the CB position or both in the STD-BY position. In the absence of the CB signal, regular radio transmission will be received. However, any CB signal will automatically override the radio.

4. AM/FM Stereo Radio — Push button station selection. Stereo indicator light. Balance and tone controls. This unit also features AFC, multiplex stereo decoder system, and disturbance filters.

5. AM/FM Stereo With 8 Track Tape Player — Push button station selection. Stereo indicator light. Balance, tone and track selection controls. Push button tracking for instant program selection.

6. AM/FM Radio — Push button station selection. Tone control. AM radio available but not shown.

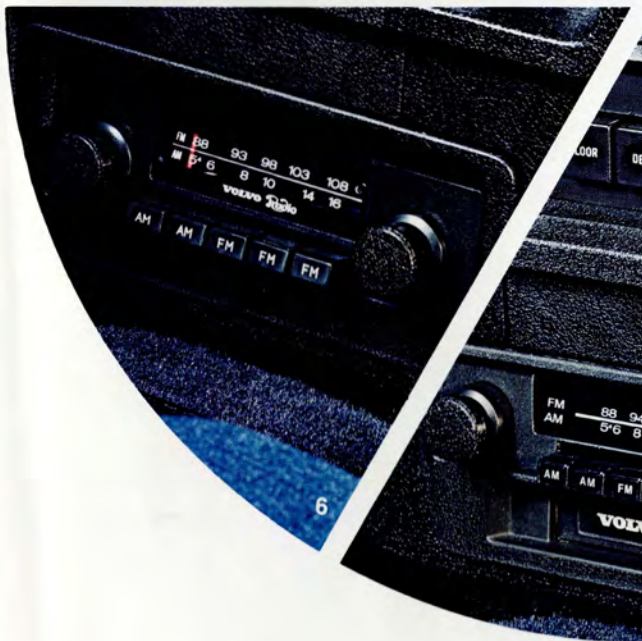

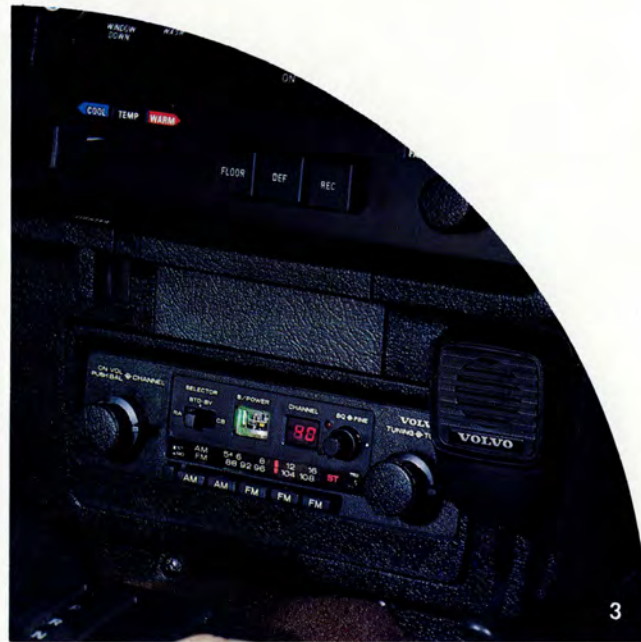

REAR SPEAKER ACCESSORIES

7. Flush Mounted Rear Speakers — Flush mount on rear window shelf. Includes two high quality speakers capable of handling 15 watts of peak music power. Balance control switch provided.

8. Power Booster — For greater frequency response and distortion-free sound, this in-line amplifier allows the radio amplifier to operate in the lower end of its output range. 20 watts per channel.

9. Deluxe Stereo Rear Speaker — A 20 watt multi-element speaker enclosed in a tuned chamber. Controls resonant frequency and eliminates transient interference between the two speakers functioning in a common enclosure. Two required.

GT / Sport Accessories

You're an intelligent and thoughtful individual. People depend on your instincts. Your decisions have to be on target and personalized. VOLVO's GT options are on target for you to express yourself. For you to individualize your car — your personal approach to driving.

Perhaps even more importantly, these GT options add increased safety and road holding performance to an already well thought out car. Your VOLVO comes standard with McPherson Spring Strut Suspension System coupled with rack and pinion steering as well as a continuously fuel injected, overhead cam, V-6 or four cylinder aluminum head engine.

PERFORMANCE MONITORING ACCESSORIES

- 1. GT Instrument Panel** — Speedometer, tachometer, voltmeter, temperature, oil pressure, and fuel level gauges in a single unit which replaces stock panel. Also includes eight indicator lamps, odometer, and trip odometer. Reflection-free glass over yellow lettering on black background.
- 2. GT Steering Wheel** — Smaller diameter than standard wheel for unique GT feel. Covered in padded, imitation leather. Smart looking and comfortable too!
- 3. Tachometer** — Reflection-free glass over white lettering on black background. Installs into standard instrument panel.

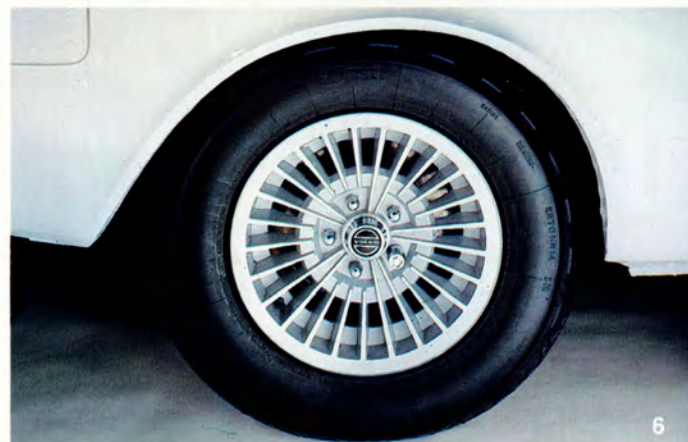

GT INTERIOR DECOR ACCESSORIES

- 4. GT Gear Shift Knob and Shift Boot** — Shift knob is leather covered for safe, comfortable grip. Classic shift boot is leather as well. Standard on 242 GT. Each available separately.

ALLOY WHEELS

All three styles add distinction to your VOLVO while reducing unsprung road weight. Manufactured from high strength aluminum alloy. Each wheel weighs only 12.5 lbs. and is finished in a highly polished transparent varnish.

- 5. GT Alloy Wheel** — Available for all models. Standard on 242 GT.
- 6. Finned Alloy Wheel** — Features GT hubcap for that sporty look. Standard on 262 C and 264 GL.
- 7. Deluxe Slotted Wheel** — All models. Manufactured from high strength aluminum alloys.
- 8. Stainless Steel Aluminum Trim Ring** — Dress up your wheels just that much more. Standard on 260 Series.

EXTERIOR GT/SPORTS ACCESSORIES

Combine function and flair with these VOLVO accessories.

1. GT Stripes — Available in silver metallic and dull black, these durable vinyl stripes add flair for years of good looks.

2. GT Spoiler With Optional Stripes — Get higher pressure on the front axle (for better handling and stability) and less wind resistance (resulting in less fuel consumption) with your VOLVO GT Spoiler. Available for front mounting. The Spoiler comes in black or metallic silver. Optional stripes add flair. NOTE: To avoid possible brake overheating, Spoilers should be used only on cars equipped with VOLVO alloy wheels.

3. Grille Foglight Kit — For greater protection under adverse conditions these auxiliary driving lamps recessed in their own custom grille (included) are a must. 242 models only.

4. Oil Cooler — A radiator for your oil! VOLVO's oil cooler helps prevent engine damage from overheated oil — equally as important for hot weather driving as your cooling system radiator. Comes complete with all hoses and hardware.

5. Road Holding Package — Everything you need for even better control and stability. New front and rear gas pressure shocks, heavy duty springs, and the heavy duty anti-sway stabilizer bar. Road sway reduced to a fraction; cornering ability measurably increased. Shocks may be purchased separately.

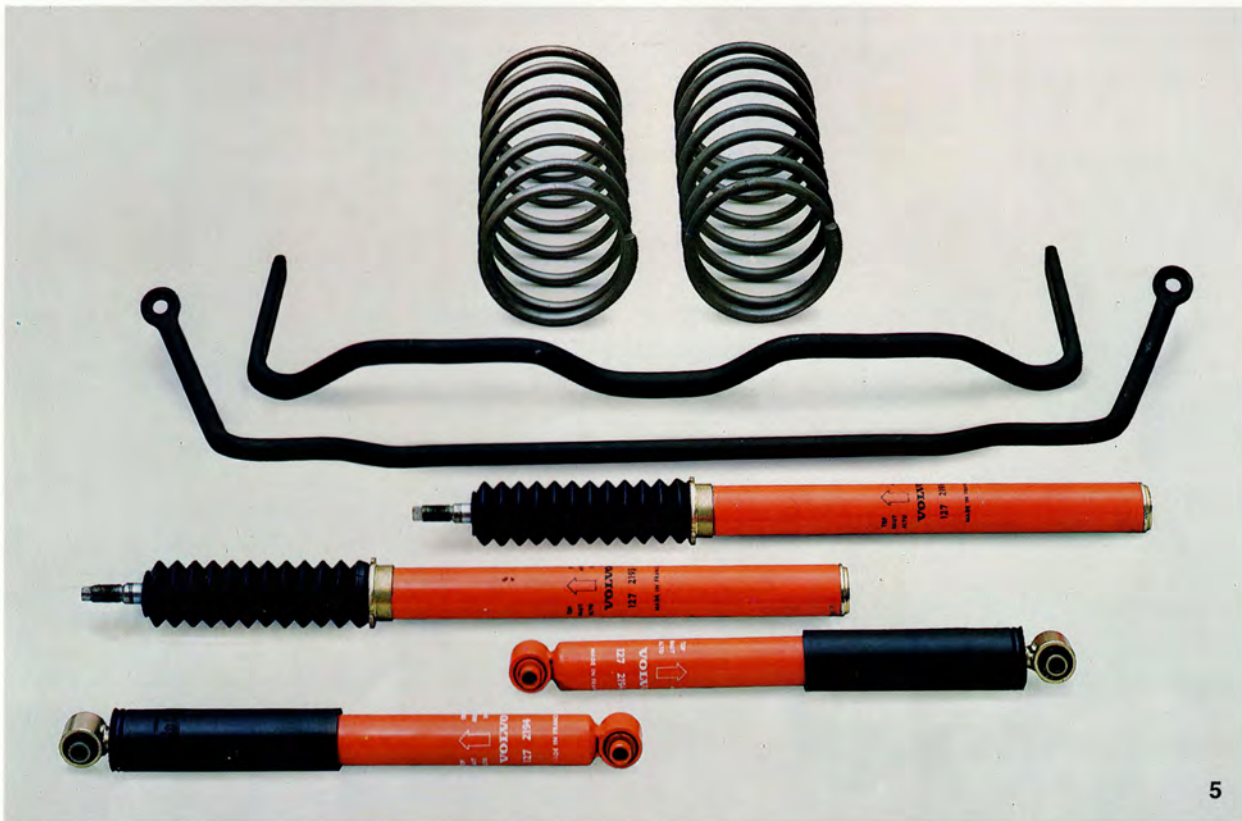

4

VOLVO Performance Equipment — VOLVO doesn't build a production rally sports car — but you can! The enthusiast will find VOLVO GT performance equipment to meet almost every need.

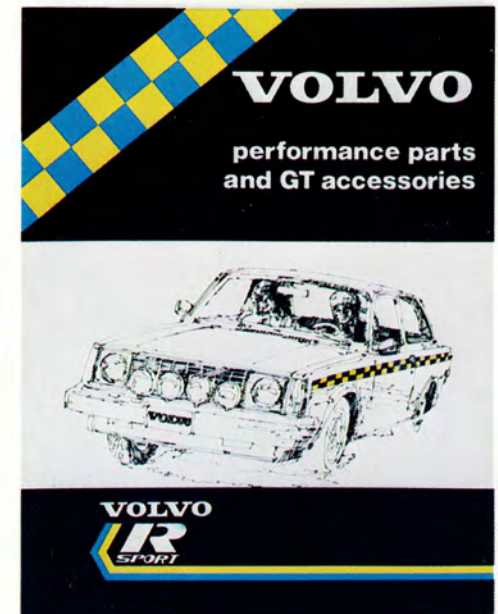

VOLVO offers a complete line of engine, power train, exhaust, suspension, and lighting accessories that will help you modify your VOLVO for peak performance and road handling.

A complete and descriptive VOLVO Performance Accessories Catalog is available from your VOLVO dealer or write VOLVO of America Corporation, Parts and Accessories Division, Rockleigh, N.J. 07647. (Price \$2.00)

See for yourself just how much driving pleasure your VOLVO can offer!

5

Weather Accessories

Everybody talks about the weather and even VOLVO engineers can't control it but they have designed a wide range of accessories to make driving in all kinds of weather safer and more comfortable.

1. All Season Air Conditioner — With an adjustable thermostat independent of the heating system you can set your air conditioner once and enjoy constant temperature, dehumidified, filtered air for pleasurable driving comfort.

Air conditioning from VOLVO is not simply a choice between hot and cold. Your VOLVO All Season Air Conditioner is fully integrated with the heating system yet operates independently of the heater slide control.

An all new, color-coded thermostat control serves as the A/C on-off switch. This control features an inhibiting device (set at 32°F to prevent freeze-up) which you can override manually for quick cooling when first setting out or in city traffic. Once cool, turn the thermostat back to the regular range, select the desired coolness, and enjoy constant temperature, dehumidified, filtered air for pleasurable driving.

2. Limited Slip Differential — Gives your VOLVO an extra "Drive" wheel. Provides excellent traction in mud, sand, rain, ice and snow.

3. Foglamps — Give your vision that extra advantage with these all-weather, clear lens, quartz iodine lamps, mounted below the bumper.

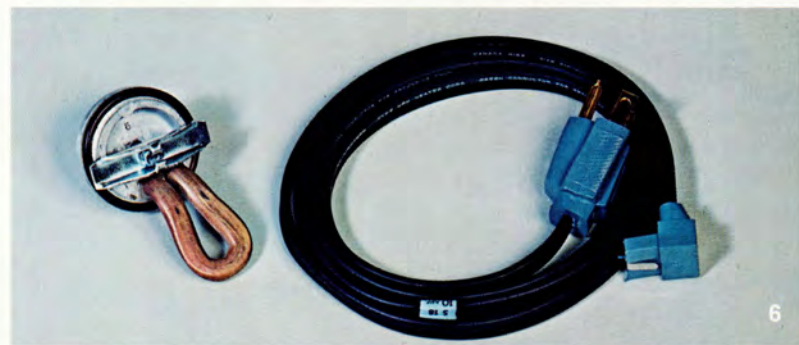

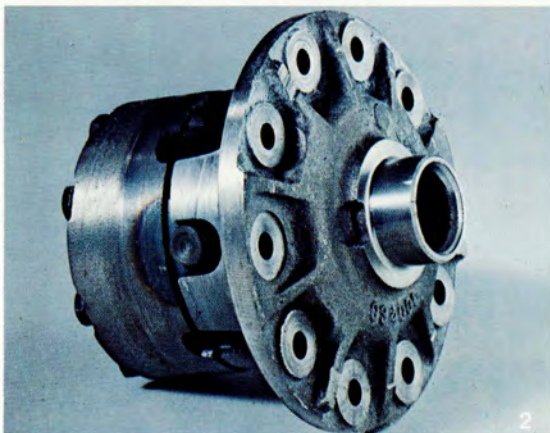

4. Ambient Temperature Gauge — This road safety device provides constant information about changes in outside air temperature at road level from 40° to -25°C. This information can be critical as an early warning of road icing ahead. Thermo-couple sensor mounts under front bumper. Gauge mounts in the instrument panel.

5. Interval Rear Window Wiper — Misty, drizzly days have always presented a driving problem. Not wet enough to use your wipers constantly, not clear enough to see through. VOLVO engineers have come up with the perfect solution. Our rear wiper for your wagon makes three passes over the window once every fifteen seconds, thus providing maximum visibility and minimum distraction for your driving convenience.

6. Engine Block Heater — For quick, safe, sure starts on cold mornings and to help prevent freezing weather damage to your engine our block heater is a sure thing. Fits into "freeze plug" on engine block and uses normal AC house current.

7. & 8. Sunroof Wind Deflectors and Side Window Deflectors — To help reduce glare and wind noise all around, VOLVO engineers have developed these combination sunvisors and wind deflectors. When these tough durable plexiglass elements are mounted on your sunroof and side windows the comfort and safety of you and your passengers is greatly enhanced. Sunroof Wind Deflectors available in smoke, amber, green or blue. All units include rubber weather seal mountings.

Travel, Towing and Load Carrying

Some essential elements of your life style are too big even for VOLVO's spacious cargo compartments. For those "little" pleasures our engineers have designed, exclusively for your VOLVO, a series of travel, towing, and load carrying accessories that will increase and enhance your VOLVO's ability to afford you pleasure.

TRAVELING WITH YOUR VOLVO STATION WAGON

Versatility may well have been your objective when you decided on your VOLVO Station Wagon. A VOLVO Station Wagon serves admirably as a recreation vehicle, a school bus, a light truck, or simply a good looking family car. The accessories on these pages and elsewhere in the brochure will help your wagon do all its jobs well.

- 1. Removable Wagon Rack and Cargo Net** — A six-point nut and bolt clamp assembly secures the rack firmly to your roof gutter in minutes. Aluminum slats add durability and attractiveness. Built in Spoiler reduces wind noise to a minimum. Elasticized nylon net holds rack load securely. (Net available separately.)
- 2. Sedan Roof Rack and Luggage Cover** — Removable luggage rack polyvinyl coated for protection latches into roof gutters with four zinc plated and padded spring lever assemblies. Weatherproof vinyl cover keeps luggage protected from the elements. Restraining strap available separately.
- 3. Load Carrier** — Bar-type carrier holds wide bulky loads. Optional extension rails expand width capacity to 80 inches. Ski straps also available.
- 4. Permanent Wagon Rack** — A must for the weekend handyman and traveler. Chrome plated steel resists rust and adds beauty.
- 5. Locking Ski Rack** — Carries up to five pairs of skis and poles. Lockable, comes with two keys.

Towing and Load Carrying

Your new VOLVO is one of the best designed vehicles for towing that is available today. The drive train incorporates a transmission and a gear ratio that gives you the power for effortless towing within the specified limits. The engine cooling system easily accommodates the added load. As a matter of fact, under actual hill climb towing conditions in tests conducted in the heat of Death Valley, all of the VOLVOs tested successfully completed the climb without overheating. With these accessories on your VOLVO, you can put the bulk of your load carrying problems behind you with confidence. Or, you can put them on the roof.

1. Wire Harness, Trailer Plug, and Adapter — All the necessary components to complete the trailer-to-car hook-up.

2. LOAD LEVELING SYSTEMS

Fully Automatic Load-Leveling System

Complete "hands-off" operation. Sensors determine load adjustment and make height corrections . . . automatically.

Semi-Automatic Load-Leveling System

Comprised of special air shocks, compressor, dash gauge switch and wiring. Elevates rear of car with the touch of a button to compensate for load weight.

Load-Leveling System

Special rear air shocks can be inflated to alter car height. Valves installed inside trunk.

3. Auxiliary Seat — Take the whole family when you convert your five passenger wagon into a roomy seven-seater. Fold it down and out of sight when not in use. Comes complete with armrests, seatbelts, and entry/exit handle above tailgate. Available in black and beige.

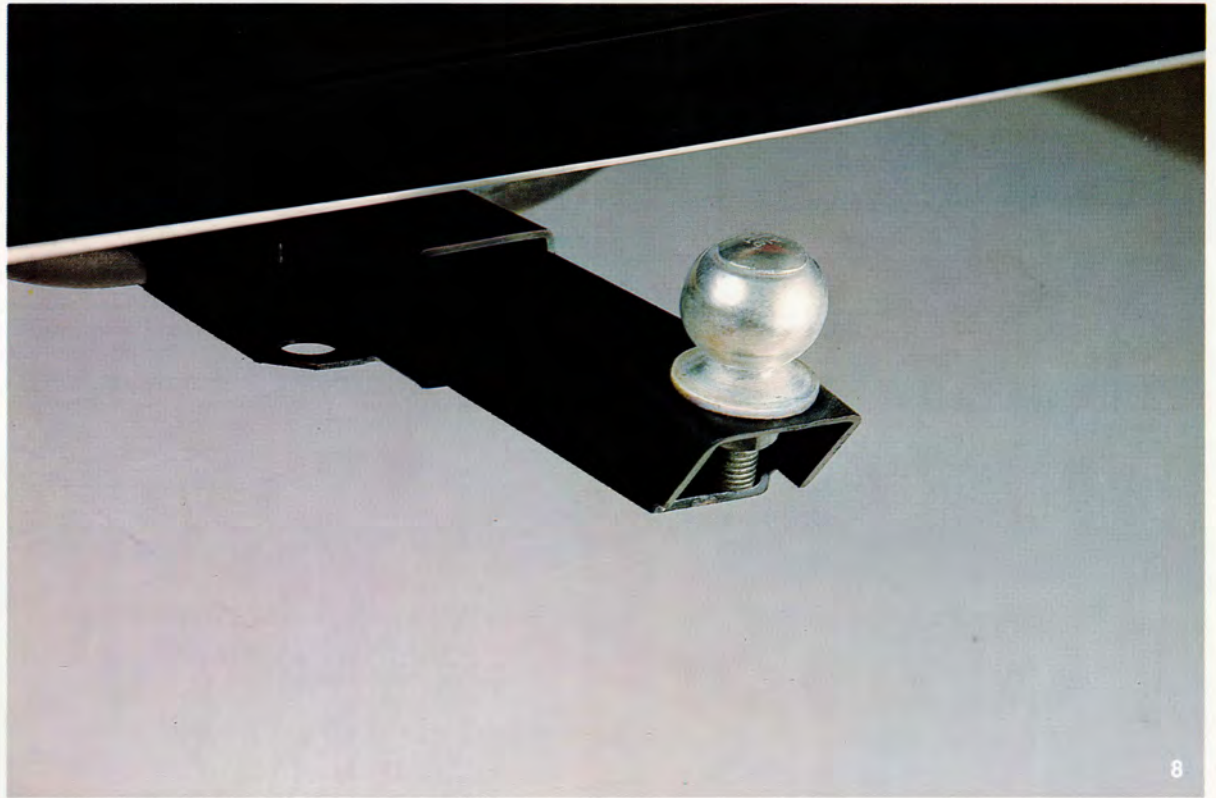

4. Cargo Mat — Custom fitted vinyl mat protects folded-down seat backs. Keeps cargo area neat and clean. Removable for storage.

5. Dog Restraint — Tubular framed elastic nylon restraint keeps man's best friend (and man) safer. Keeps upholstery cleaner.

6. & 7. Mirror Extension Arms — Stainless steel arms extend side mirrors to make them applicable for towing. Mirrors not included. Available in chrome and black.

8. Trailer Hitch — Sturdy steel yoke bolts to car frame. Ball/draw bar assembly detaches when not in use. Maximum recommended trailer weight 2,000 lbs. (908 Kgs.) and tongue load 200 lbs. (90 Kgs.). Meets both VOLVO Safety Standards and Federal Safety Standard FMVSS 301-75.

Comfort and Convenience

When you decided on your VOLVO you expected precision engineering, top quality construction, overall excellent performance, reliability, and safety. VOLVO certainly has all that to offer. But it also has more. VOLVO has luxury. Both standard and optional.

On the standard side, every VOLVO has orthopedically designed seats that give you that unique and luxurious lumbar support so important to comfortable driving. Especially important on long trips. Your VOLVO also gives you expansive window area that offers the luxury of unimpeded vision so important to safely operating a car. Unquestionably, two very rational standard luxuries.

VOLVO's optional luxuries are equally rational.

1. Power Front Windows — Controls for both at the driver's fingertips in center console. Standard on 260 series VOLVOs.

2. Cruise Control — Say goodbye to foot and leg fatigue. And save gas at the same time. Let a VOLVO Cruise Control maintain a steady even speed for you. Reliable vacuum unit locks in and maintains any pre-set speed above 30 mph. Braking or accelerating disengages and your VOLVO will resume its preset speed from "memory". Mounted on the turn indicator/ high beam wand, Cruise Control is always at your fingertips. Meets all Federal, State, and **VOLVO** safety standards. Only VOLVO approved unit on the market.

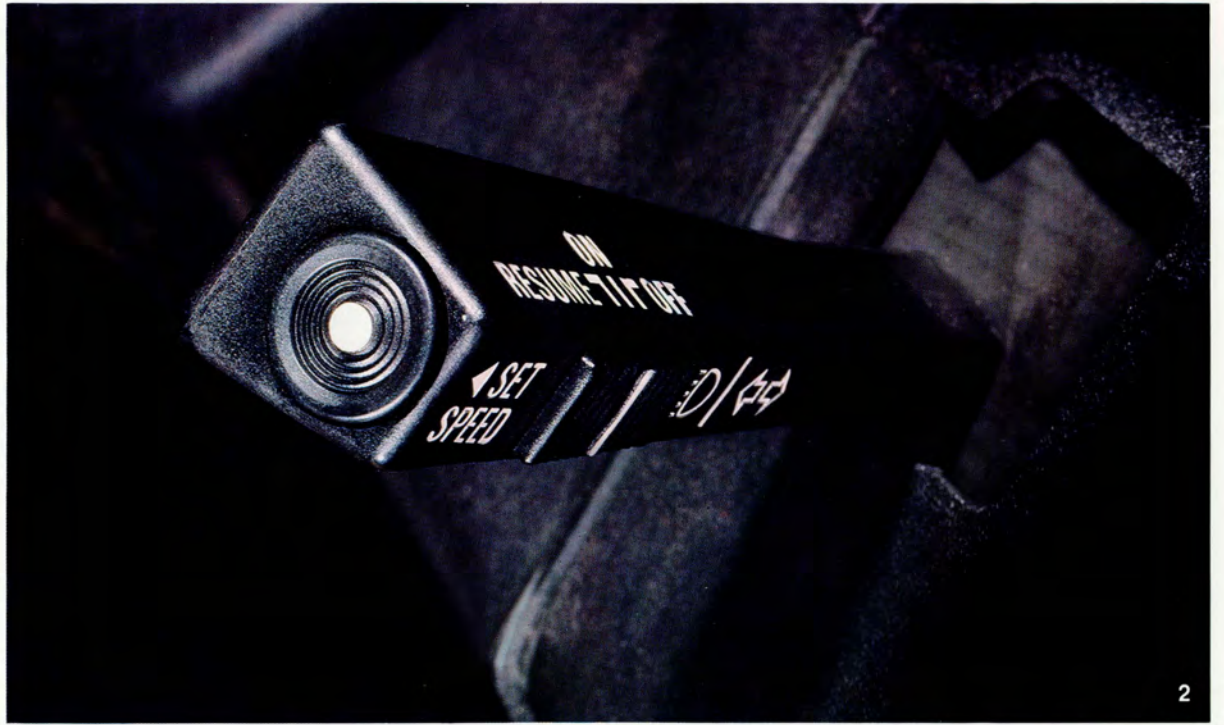

3. Power Rear Windows — Have control of all four windows at your fingertips. Control switches mount between the front seats on top of emergency brake/seat belt console. Standard on 260 series VOLVOs.

4. Electric Remote Control Side Door Mirrors — Obtain any rear view you desire with these infinitely adjustable, electrically controlled mirrors. A pair of four way toggle switches mounted on the emergency brake/seat belt console puts control of your perspectives at your fingertips. Standard on 260 series VOLVOs.

... Comfort and Convenience

The options on these two pages are not likely to be found on many cars. They will be found, however, on VOLVO s owned by particular and detail-minded individuals who direct their lives with precision. They expect that same precision of detail and luxury from their automobile. VOLVO offers these accessories with those individuals in mind.

- 1. Adjustable Reading Lamp** — If it's maps, books, stock quotes, or anything on to which more light should be shed, this flexible "goose neck" lamp is ideal. Mounts in a variety of locations. Snaps into unobtrusive cable holder when not in use. Bulb shield adjusts for precision light beam control.
- 2. Rear Head Restraints** — Give your rear seat passengers the same comfort as front seat occupants. Available in black or beige to match front restraints.
- 3. Rear Window Sun Screens** — You can see out perfectly yet no one can see in. Works like a window blind to block sunlight and reduce glare.
- 4. Adjustable Armrest** — Choose your perfect fit from six available positions. Mounts between front seats.
- 5. Head Restraint Cushions** — The perfect companion for our basic restraints. These cushions offer extra comfort for front and rear passengers. See Accessories Listing for details (Pg. 23).
- 6. Dash Handle** — Offers front seat passenger a little extra leverage when exiting. Mounts on dash under glove box.
- 7. Center Console Tray** — Handy tray mounts on the face of the center console. Pliable foam plastic for greater safety.
- 8. Floor Consoles** — Mounts between the seats and the door sills. Sold in sets only.
- 9. Locking Gas Cap** — Prevent pilferage and vandalism. Two keys.
- 10. Retractable Coin Compartment** — What better place for toll tickets, parking money, keys, than this retractable coin compartment. This useful accessory mounts to the left of the steering column.
- 11. Trunk Basket** — Vinyl-coated wire basket helps you organize the small articles in your trunk. For sedans only.
- 12. Steering Wheel Covers** — Keep hands cool and dry in summer; warm in winter. Available in vinyl and genuine leather.
- 13. Genuine Leather Steering Wheel** — One of the most luxurious touches you can add to your VOLVO. Steering wheel is completely covered with comfortable, elegant genuine calf leather. Fully padded with distinctive VOLVO emblem. Must be seen to be truly appreciated.

Care and Maintenance Accessories

Your VOLVO is certainly one of the most durable cars in the world. Many of its design features are industry benchmarks. The VOLVO Care and Maintenance accessories pictured here will help you preserve this image of distinction by enabling you to inexpensively keep your VOLVO's beauty and performance "showroom perfect" for years.

Care and Maintenance shown on the facing page:

1 & 2 Floor Mats and Floor Trays — Black vinyl floor mats stand up to years of use. Unique design helps prevent the spreading of dirt and grime. Front mats have two pre-drilled holes for use with clip assembly to anchor mats to floor. Available for front and rear.

Floor Trays utilize deep-dish design for added carpet protection. Available for front and rear. Won't interfere with accelerator, brake or clutch pedals.

3. Touch Up Paints — Available in exact match of original. Built-in applicator brush in bottle. Spray can for larger areas.

4. Waxes and Polishes — Paste wax, liquid wax, and polish.

5. Solvents, Lubricants and Fluids — Brake Fluid, Cooling System Rust Preventive and Lubricant, Gas Line Anti-Freeze, Lock De-icer.

6. Service Manuals. Available for current and past models.

VOLVO Genuine Replacement Batteries

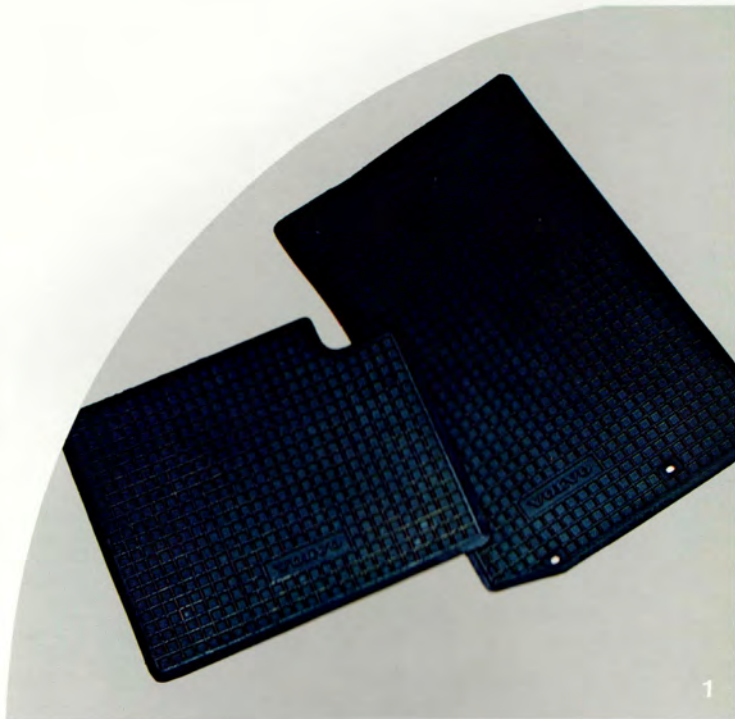

Probably the most common cause of premature battery failure is water . . . or rather the lack of it. With VOLVO's New Maintenance-Free Battery — that is no longer a problem. Simply have a VOLVO Dealer install one in your car and forget dead battery aggravation.

Unlike many maintenance-free batteries, the VOLVO design does not sacrifice plate size or strength. And, the vent caps have been left on to provide fast dissemination of dangerous gases that are common to all batteries. Of course, the New VOLVO Maintenance-Free Battery incorporates the technology and engineering know-how that has become synonymous with the VOLVO name.

Have your dealer perform a simple test. It takes only a few minutes. And, if need be, he will replace your worn battery with the new, trouble and maintenance-free VOLVO battery.

- 70 ampere-hour capacity for exceptional cold cranking and reserve power.
- Fits all models — all years, both 4 and 6 cylinder.
- Manufactured from rugged, durable external and internal materials to fight corrosion.
- 5-year warranty.
- Access caps to disseminate gases quickly.

Personal Accessories

Throughout this brochure, we have described VOLVO Accessories that are designed to add performance to your car. Here are a few accessories designed especially for you.

1. VOLVO Golf Umbrella — Large size. Blue and white combination.

2. VOLVO Tie — 1927 VOLVO embossed on a navy blue polyester field.

3. Lapel Pins, Electronic Lighter, Gold Plated Pen and Pencil Set, Pocket Knife.

4. Coaster Set. Key Ring — leather strap with VOLVO emblem. Key Ring with two hour timer. Great for judging remaining parking meter time. **Key ring, 1927 VOLVO medallion.**

5. VOLVO 1927 Model

6. Model Cars — Fully assembled.

7. VOLVO Ashtray

8. VOLVO Steel Tape Measure

9. VOLVO Ski Jackets — Blue nylon winter ski jacket with knit cuffs and waistband. Attractive white trim stripes. Available in adult and children sizes.

10. VOLVO Windbreaker — VOLVO Blue Windbreaker handsomely styled, trimmed with white stripes.
