

1980 VOLVO ACCESSORIES

VOLVO ACCESSORIES...

MAKING A CAR YOU CAN BELIEVE IN EVEN BETTER.

The name Volvo is often synonymous with quality, safety, reliability, comfort, and practicality. A reputation that can be largely attributed to the innovative engineering built into every Volvo. This same engineering is also responsible for the development of a very important group of products known as Volvo Accessories. Designed to fulfill more specific requirements that may be beneficial to you and the environment you live in.

This brochure is conveniently organized into specific categories, allowing easy reference to areas that are of particular interest to you.

Use it as an aid to select those Accessories

that work with and compliment your life style. A life style and a Volvo that is uniquely yours.

To support our quality workmanship, Volvo Accessories are protected by a 12 month limited warranty. This covers replacements or repairs caused by defects in workmanship or material for 12 months from date of purchase. Included are all labor charges if originally installed by a Volvo dealer. Contact your Volvo dealer for exact warranty stipulations.

**Original Volvo Accessories...
Making The Car You Believe In Even Better.**

COMFORT AND CONVENIENCE

1. Leather Steering Wheel

One of the most luxurious touches you can add to your Volvo. Steering Wheel is completely covered with comfortable, elegant genuine calf leather. Fully padded with distinctive Volvo emblem.

2. Power Front and Rear Windows

The ease and luxury of fingertip control power windows. Convenient rocker switch mounts on the center dash console for front windows and the center hand brake console for the rear. Available in two separate kits for the front and rear windows. Standard on GLE models.

3. Dash Grab Handle

This practical accessory eases exit and entry for front seat passengers. Mounted next to the glove box, the grab handle is finished to blend with Volvo's dash.

4. Head Restraint Cushions

The perfect companion for our basic restraints. These cushions offer extra comfort for front and rear passengers, and are color coordinated to perfectly complement your interior decor.

5. Retractable Coin Console

Located on the dash to the left of the steering column, this useful retractable console is ideal for placing parking money, toll tickets and keys within easy reach.

6. Adjustable Reading Lamp

Designed to emit a concentrated beam on any reading material, this Volvo lamp has a flexible "goose neck", can be mounted in any number of locations and snaps into an unobtrusive cable holder when not in use.

7. Fuel Economy Gauge

Alerts the driver of unnecessarily high fuel consumption driving modes. This precision gauge mounts in the instrument panel, and can pay for itself many times over.

8. Electronic Cruise Control

Make long trips comfortable and economical! Let the Volvo Cruise Control maintain a steady and even speed for you. Reliable electronic control locks in and maintains any pre-set speed above 30mph (45 kph). Braking or accelerating disengages and your Volvo will resume its preset speed from "memory". Mounted in the turn indicator / high beam wand, Cruise Control is always at your fingertips.

9. Adjustable Armrest

Push-button height adjustment of six available positions and a fold away feature, makes this armrest a convenient and attractive item. Available in beige, blue and black to harmonize with vehicle interiors.

10. Center Console Tray

Handy tray mounts on the face of the center console. Pliable foam plastic for greater safety, and conveniently located to store all the little "odds and ends" neatly.

Additional accessories available but not shown, are as follows:

Rear Head Restraints

Give the rear seat passengers the same degree of comfort as front seat occupants. Available in black, beige, brown, blue, and grey.

Steering Wheel Covers

Keep hands cool and dry in summer; warm in winter. Available in vinyl and genuine leather.

Trunk Basket

Vinyl coated wire basket helps you organize and store the small articles in your trunk. For sedans only.

Window Shades

Elegant back window shades designed to protect rear seat passengers from the sun's heat and drivers from sunlight/headlamp reflections on the rear view mirror.

GT SPORT

Light Alloy Wheels

Three distinctive designs that are as functional as they are beautiful. Light alloy material reduces unsprung weight, thus improving suspension response and ride comfort. Open design and alloy material improves brake cooling while precision machining assures perfect concentricity. 14" x 5 1/2" size fits all models from 1975.

1. Finned Alloy Wheel

Elegant design can be used with large hubcap or small cap with chrome lug nuts (large cap shown). Standard on GLE models.

2. GT Alloy Wheel

Used with small cap and chrome lug nuts for sporty appearance.

3. Deluxe Slotted Wheel

Used with large hub cap for a luxurious appearance.

4. Wheel Trim Ring

Dress up your wheels just that much more with the Volvo stainless steel trim ring. Standard on GL Series cars.

5. Oil Cooler

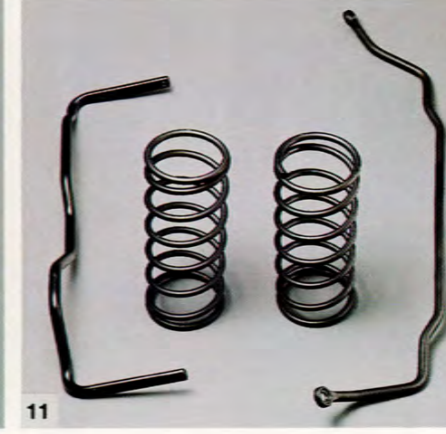

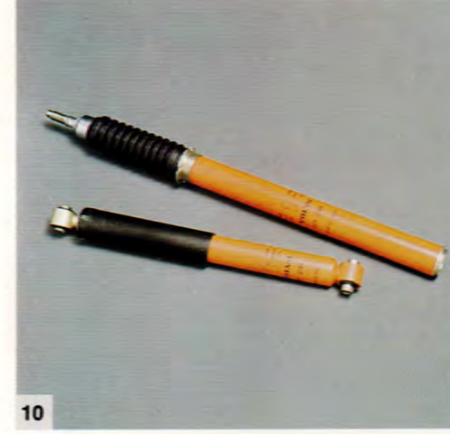

A radiator for your oil. Keeps the engine oil at ideal operating temperature during extremely hard driving or towing conditions.

6. GT Steering Wheel

A sporty, smaller-diameter steering wheel for that unique GT feel. Comfortable and smart, this Volvo steering wheel is standard equipment on the GT.

7. Tachometer

Adds a sporty flair to any model and is particularly useful for cars with standard transmissions. Fully transistorized with reflection-free glass, this instrument is indispensable for the serious driver. Installs into standard instrument panel. Standard on GL, GLE, and GT models.

8. GT Gear Shift Knob and Boot

Add a sporty and luxurious appearance to your Volvo with these handsome accessories. The gear shift knob is leather covered for a safe and comfortable grip and the gear shift boot is made of genuine black or beige leather. Each item is available separately.

9. Spoiler

Improves aerodynamic efficiency for better handling and stability and less wind resistance resulting in less fuel consumption. The spoiler is available in black or metallic silver with optional silver or black stripes.

10. Gas Shocks

These nitrogen gas-filled shock absorbers increase stability for outstanding road handling without reducing driving comfort over a wide range of operating conditions.

11. Road Handling Kit

Consisting of front and rear stabilizer bars and heavy duty springs for the front suspension, this road handling kit increases the stability of the car by 35% when fitted together with Volvo gas-filled shock absorbers.

12. Performance Parts Catalog

Volvo offers a complete line of high performance engine, drive train, exhaust, suspension and lighting equipment that allows you to tailor your Volvo for simply a more sporty appearance or to a fully prepared race or rally car.

A complete and separate Performance Parts and GT Accessories catalog is available from your Volvo dealer or by writing:

Volvo Performance Parts
Building "C"
Rockleigh, New Jersey 07647
Price: \$3.00

AUDIO SYSTEMS

1. AM/FM Stereo Cassette Microprocessor

Microprocessor computer technology includes programmed functions for seek and scan features, plus memory for pre-selecting stations.

Electronic tuning allows for precision lock-in on station and identifies frequency on bright, clear digital display. The integrated cassette features auto-reverse, electronic noise suppression, fast forward and reverse, channel selector and tape reverse switch.

Features four separate speaker outputs with side to side and front to rear fader balance. Each speaker is driven by 6.5 watts maximum power.

2. Antennas

Four different antennas designed for your individual needs.

Combination CB AM/FM Power antenna—Offering optimum reception on both CB and AM/FM bands, this electric antenna automatically retracts when the radio or ignition is turned off.*

Power Antenna—Automatically retracts and extends when radio or ignition is turned on or off.*

CB Mast Antenna—Top loaded mast antenna allows for easy matching and exceptional reception for CB enthusiasts.

Front Windshield A Post Antenna—Our most economical yet unobtrusive AM/FM antenna. Utilizes front post for excellent stereo reception.

3. AM/FM Stereo Cassette

Specially designed for Volvo, this AM/FM Stereo is combined with a four track cassette to give you the exact programming you desire. Features automatic frequency control, electronic noise suppression,

stereo-auto-mono switch, fast forward and reverse switch, separate reverse switch and automatic tape head retraction when ignition is turned off. Maximum output, 8 watts per channel.

4. Volvo Speaker Systems

Flush Mounted Rear Speakers—Two 15 watt speakers with fader control mount on rear shelf of all sedans.

Deluxe Rear Speakers—Two way speaker system mounted in a distortion free

acoustical enclosure handles up to 20 watts of power. Mounts on rear shelf; two required. **Station Wagon Rear Speakers**—Includes two high quality speakers and fader control. Color-coordinated speakers mount on rear side panels and are available in blue, dark beige, and light beige.

5. AM/FM Stereo

The AM/FM Stereo radio features electronic noise suppression, push button control, automatic frequency control, stereo/mono selector switch, base and treble control, balance control, and stereo reception indicator lamp. Power output, 8 watts per channel.

6. Power Booster

This power booster allows audio enthusiasts to gain full benefit from Volvo rear speakers by ensuring distortion-free sound even at high volume. Maximum output, 20 watts per channel.

7. AM/FM Stereo Microprocessor

Electronic tuning replaces the traditional dial knob as it seeks broadcast signals and automatically or manually locks-in on exactly the right frequency.

Large, bright digital display automatically dims for night driving. Features include 12 station memory (6 AM and 6 FM), fast station search, balance and tone controls, and up and down incremental station steps. Maximum output, 6.5 watts per channel.

8. Modular CB

The exclusive Volvo Modular 40 Channel CB again utilizes microprocessor technology to allow all CB controls to be contained in one compact microphone.

The actual power module is hidden away in the trunk, while the microphone can be easily tucked away or disconnected.

Just a few of the important features include: Automatic stand-by that can be set to interrupt AM/FM broadcast; up and down manual scan buttons; automatic scan switch for either busy or vacant channels; 5 channel memory and scan; large, bright digital display; channel 9 emergency switch; signal strength indicator.

9. AM/FM Stereo 40 Channel CB

This integrated 40 Channel CB with AM/FM stereo is the ultimate in mobile audio equipment. Volvo's unique RA/CB selector switch allows you to listen to AM or FM in the RA position, transmit or receive in CB position or both in the STD-BY position. In the absence of the CB signal, regular radio transmission will be received. However, any CB signal will automatically override the radio. Maximum output, 7 watts per channel; CB output, 4 watts per channel.

Additional accessories available but not shown, are as follows:

AM/FM

Featuring push button control, automatic frequency control; base and treble control and separate fader control. The Volvo AM radio is also available.

AM/FM Stereo 8 Track

With 8 Track Tape Player—Push button station selection. Stereo indicator light, balance, tone, and track selection controls. Push button tracking or instant program selection. Maximum output, 7 watts per channel.

*manual operation only with AM or AM/FM Mono Radio.

SAFETY AND SECURITY

1. Lockable Gas Cap

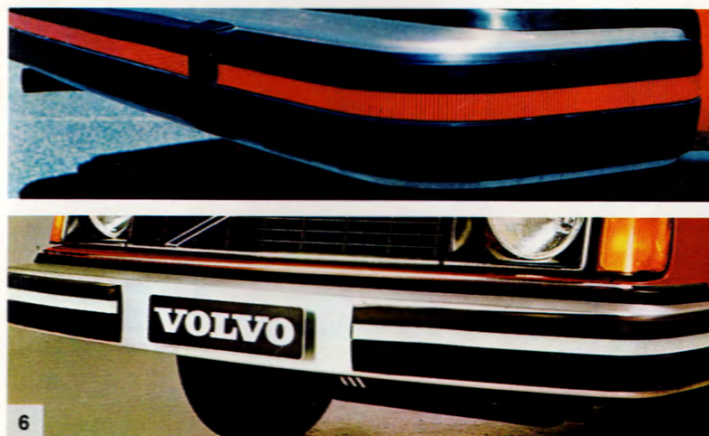

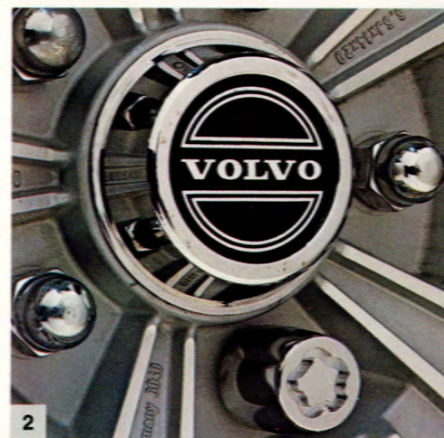

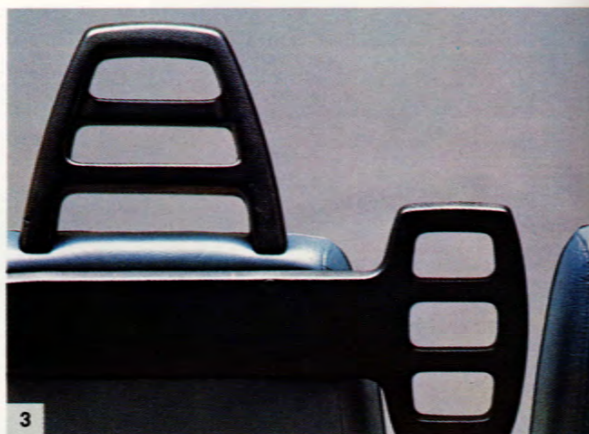

A sensible answer to provide security against theft and vandalism. Comes complete with two keys and is made of a bright red corrosion resistant material, making it difficult to misplace.

2. Lockable Wheel Nuts

Protect your investment in light alloy wheels with lockable wheel nuts. Special socket with each package of four nuts allows only you to remove wheels. Extra sockets available through a code card enclosed in each package. Made of chrome plated steel for long lasting beauty.

3. Child Guard

Constructed of shock-absorbing foam plastic with tubular steel reinforcement, this safety device prevents children from being thrown forward between the front seats in the case of an emergency stop. The child guard mounts on the back of the drivers seat frame which has been pre-adapted for this accessory.

4. Warning Triangle

A practical roadside warning device made of reflective, light-sensitive, luminous plastic. The triangle stands on three sturdy feet which provide good stability. Folds neatly in a practical Volvo translucent case.

5. Anti-Theft Alarm

The doors, hood, trunk, and/or tailgate are wired to a special horn to offer excellent protection against breaking and entry. If opened, the alarm will sound off if a key is not placed in the ignition or the device is not activated within 15 seconds. With some insurance companies offering 5% discounts with the installation of an alarm system, this could be one of your smartest investments.

6. Bumper Reflector Stripes

This sensible kit increases the visibility of your Volvo and adds to its appearance. Consists of two self-adhesive reflector tapes, white for the front and red for the rear bumper.

WEATHER

1. Air Conditioning

A totally integrated factory designed air conditioning system that provides for a comfortable Volvo interior regardless of the weather outside.

Combined with the central heating system, it utilizes the twelve heater/ventilation outlets which dehumidifies and filters the air. Adjustable thermostat, three-speed fan and recyclable air switch all combine to give unlimited control and very rapid cool-down of your interior environment.

2. Headlight Wiper Washer Kit

A sensible safety accessory designed to keep headlights clean in the dirtiest driving conditions. Designed for 7" round headlamps (as shown in the illustration). A headlight Wiper Washer Kit is also available for large rectangular head lamps.

Note: for Canada only.

3. Intermittent Rear Wiper

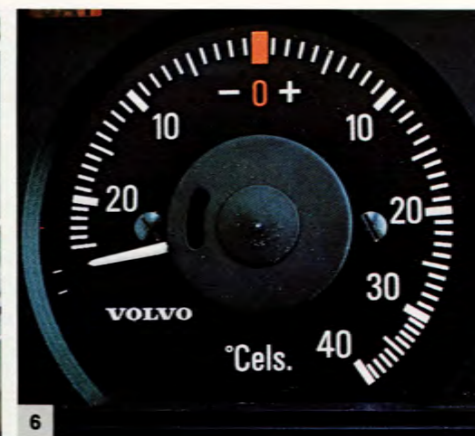

The Volvo intermittent rear wiper has been designed to provide maximum visibility and minimum distraction during misty, drizzly days when constant wipers are unnecessary. Integrated with the standard wiper wand, this practical accessory alternates rear window wipers to three strokes every fifteen seconds. Standard on GLE wagon.

4. Rear Defroster Timer Switch

Console-controlled, the rear defroster timer switches off after approximately 15 minutes thus reducing battery drain and the unnecessary heating of the rear window.

5. Side Window Deflectors

Made of durable tinted acrylic plastic, these front window wind deflectors add to driving comfort by reducing draft, wind noise and glare. Supplied in pairs and available for both two door and four door models.

6. Ambient Temperature Gauge

This road safety device provides constant information about changes in outside air temperature at road level from 40° to -25°C. The thermo-couple sensor mounts under front bumper. Gauge mounts in the instrument panel.

7. Fog Lamps

These all-weather clear lens, quartz iodine lamps give your vision that extra advantage and adds flair to your Volvo. The lamps mount below the bumper.

Note: For Canada only, amber lenses are also available.

8. Engine Block Heater

The Volvo block heater ensures quick, safe and sure starts on cold mornings and helps prevent freezing weather damage to your engine. Fits into "freeze plug" on engine block and uses normal electric house current.

9. Limited Slip Differential

Provides extra traction in mud, snow, rain, and ice, causing both rear wheels to drive should one wheel begin to spin.

10. Sunroof Wind Deflector

An attractive addition to sunroof models, these Volvo wind deflectors are made of durable tinted plexiglass to reduce wind noise and glare for greater driving comfort. Available in smoke, blue, green and brown.

TOWING, LOAD CARRYING AND

TRAVEL

1. Load Levelling Systems

Fully Automatic Load-Levelling System

Special valves and orifices within the shock absorber sense fluid level in shock, and automatically adjust to normal ride height regardless of load.

When heavily loaded, the shocks become firmer for better control. When unloaded, they return to a soft setting for a more luxurious ride.

Package includes two special shocks and springs. Standard on GLE wagons.

Semi-Automatic Load Levelling System

Comprised of special air shocks, compressor and dash gauge switch. Elevates the rear of the car with the touch of a button to compensate for load weight. Fits all models.

Manual Levelling System

Consists of special air shocks, air lines and control gauge which is mounted in the trunk.

Also available:

Spring Shocks

Heavy duty spring-equipped shock absorbers for heavier loads. They ensure good stability and increase safety and driving comfort.

2. Steel Cargo Guard

A sensible design to keep either luggage or pets secure behind the rear seat to give comfort and security to rear seat passengers. The frame is made out of chromium steel tubing. The guard can be quickly folded against the roof when not required.

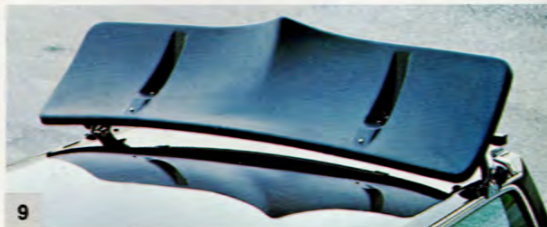

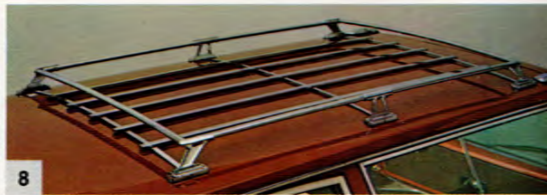

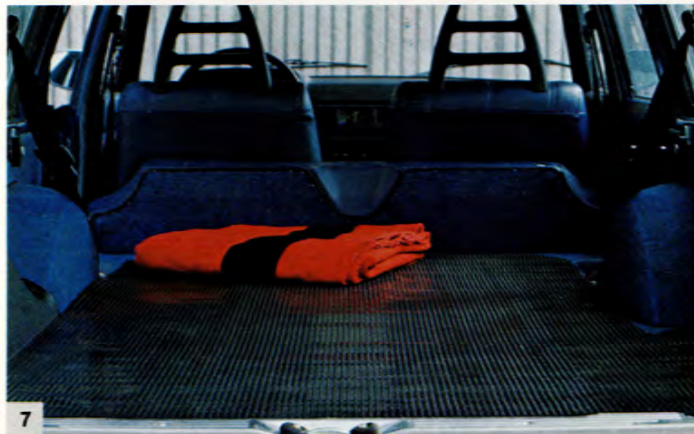

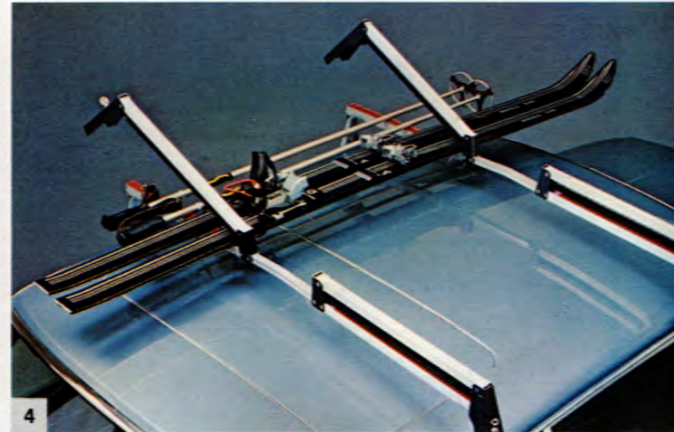

3. Security Luggage Cover—Station Wagons

Another practical item for the interior of your station wagon.

Keeps luggage out of sight of curious lookers. The cover will roll back into a special tube when not in use.

4. Lockable Ski Rack

This theft-proof ski rack can transport up to five pairs of skis and features locking arms which bolt both the rack and skis onto the car. One key locks all four locks; extra keys are also supplied.

5. Removable Wagon Rack

A clamp assembly secures the rack firmly to your roof gutter in minutes. Aluminium slats add durability and attractiveness. A built-in spoiler reduces wind noise to a minimum.

6. Removable Luggage Rack

A useful luggage rack for sedans features quick action fasteners to facilitate attachment and removal. The handy nylon luggage net (shown) and a luggage cover are available separately.

7. Wagon Cargo Mat

Custom fitted vinyl mat protects fold-down seat backs. Keeps cargo area neat and clean. Removable for storage.

8. Permanent Station Wagon Roof Rack

Highly polished stainless steel rails and corrosion proof zinc supports make up this attractive rack that adds beauty and function to all Volvo wagons.

Held to the roof by six anchorage points, this sturdy Volvo rack also features a large load carrying capacity.

9. Roof Spoiler

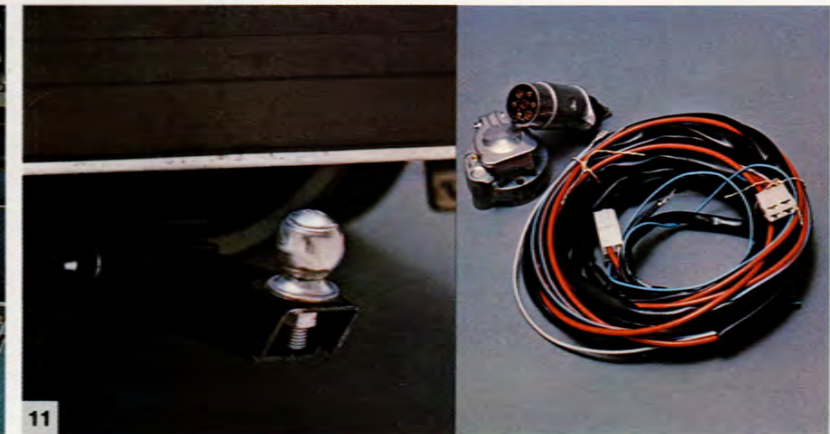

The Volvo station wagon roof spoiler is specially designed to improve stability when towing trailers and reduces wind resistance and fuel consumption. The spoiler is easily attached to the roof utilizing the Volvo load carrier which is available separately.

10. Auxiliary Seat

Convert your five passenger wagon into a roomy seven seater. Fold it down and out of sight when not in use. Comes complete with armrests, seatbelts, and entry/exit handle above tailgate. Available in beige and black.

11. Trailer Hitch and Wiring Harness

Sturdy steel yoke bolts to car frame. Ball/draw bar assembly detaches when not in use. Maximum recommended trailer weight 2,000 lbs. (908 kgs) and tongue load weight of 200 lbs. (90 kgs). Meets both Volvo and Federal Safety Standards.

CARE AND MAINTENANCE

1. Plush Floor Mats

Luxurious deep-pile carpeting specially designed and matched to the original Volvo interior.

Durable synthetic pile mats are easily removed for washing and cleaning, yet are firmly held in place with grommets and snap locks.

Available in brown, beige, blue, red and black.

2. Koko Mats

Protects original carpeting from grease and wear while adding an exciting color complement to the interior.

Held firmly in place with exclusive grommets and snap locks.

Available in brown tweed, blue, black, and beige.

3. Color Coordinated Mats

Unique color coordinated thermo-plastic mats offer an exceptional fit and maximum protection for original carpeting.

Raised border and waffle pattern traps dirt, water and snow; yet rigid construction allows for fast and easy removal and cleaning. Special backing prevents shifting and sliding.

Available in blue, brown, beige, and black.

4. Trunk Mats

Protect your trunk and keep it clean with this convenient mat set.

Available in black, they are custom designed for sedan trunks.

5. Spray and Touch-up

Keep your Volvo looking new with touch-up paints for smaller areas and fluorocarbon free spray paints for larger areas. Both paints are available to exactly match the original. Touch-up paints have a built-in applicator brush with each bottle.

6. Maintenance Items

Brake fluid,* Cooling System Rust Preventative and Lubricant,* Gas Line Anti-Freeze* and Lock De-Icer are all available for your Volvo's general maintenance. To protect and beautify your Volvo's finish, specially formulated wax and polish is also available.

7. Service Manuals

Descriptive and informative Volvo Service Manuals are available for both current and past models.

*Not available in Canada.

PERSONAL ITEMS

1. Metal and Plastic Volvo Cars

Fully assembled Volvo model cars in metal or plastic including the celebrated 1927 model give that added touch to your home or office.

2. Coasters, Key Rings and Thermometer

Elegant leather coasters illustrating Volvo models; key ring with leather strap showing the Volvo emblem; a key ring with a two hour timer; a 1927 Volvo medallion key ring and our interior car thermometer are some of the personal accessories available.

3. Lapel Pins, Electric Lighter, Gold Plated Pen and Pencil Set, Pocket Knife

Personal yet functional accessories designed especially for you.

4. Ash Tray, Tape Measure

A practically designed Volvo ashtray and the steel Volvo pullout tape measure.

5. Tie

This sporty and attractive tie is embossed with the 1927 Volvo on a navy blue polyester field.

6. Umbrella

An attractive full size blue umbrella with white Volvo emblem—perfect for golfing.
