# ACCESSORIES

***Volvo Accessories – for the individualist.***

*Volvo cars are built to the highest standards of comfort, convenience, economy and safety. But every Volvo owner is an individual with his own particular motoring needs which cannot be catered for even by a Volvo's exceptional standard equipment. A young family, for example, means child safety equipment, a boat or caravan needs specialist towing equipment.*

*Genuine Volvo accessories will meet all these special motoring needs with products of the same high standards as the car both in quality and function. In most cases they are designed and developed specifically for Volvo resulting in quick and easy fitting and complementing the style of the car to avoid an add-on look. For instance, Volvo is a world leader in the research and development of child safety equipment; and Volvo has its own range of in-car audio equipment produced by a team of Volvo radio technicians, Volvo automotive engineers and one of the world's leading radio manufacturers.*

*On the following pages you will see the range of Volvo accessories with which you can "personalise" your Volvo, the items which will make your Volvo truly yours.*

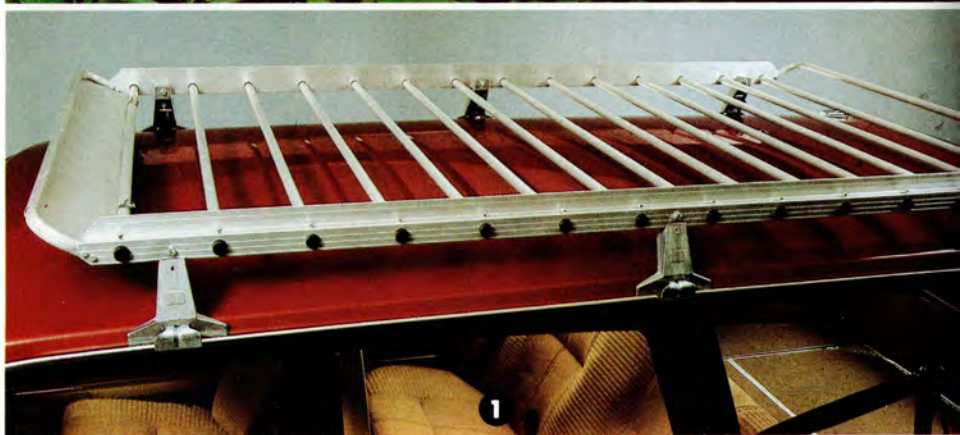

# THE WORKHORSE

Volvo cars are not just comfortable, safe and reliable. They are tough, strong and hard-working. Ideal for the owner who needs a car that can earn its keep. The Volvo 245 or 265 has special advantages as a working car. All the features of the saloon plus an enormous load-carrying potential. Even with five passengers on board there is still plenty of room for luggage, and with the back seat down you have a cargo area over 6 feet long and with over 70 cubic feet of load space.

Naturally there is a range of Volvo accessories which you can fit to your estate car to produce the complete workhorse - like the one pictured here.

**1. Estate Roof Rack 245/265.** Made of aluminium it is light (just over 25 lbs) and strong (capacity 220 lbs). The 80" x 46" load platform is fitted with a spoiler to minimise noise and wind resistance. (1129660-5).

11

**1. Retractable Tow Bar.** When not in use the tow ball can be swung away under the bumper out of harm's way. Capacity 3,300 lbs/1,500 kg. (1129096-2).

**2. Rigid Tow Bar.** Strong, tubular steel type tow bar designed specifically for 1981 Volvos. Capacity 3,300 lbs/1,500 kg. (1129095-4).

**3. Load Cover.** Plastic-coated fabric cover protects valuable cargo from prying eyes. Fits behind the rear seat and pulls out of its aluminium case on the same principle as a roller blind, hooking onto the rear pillars. (1129025-1).

**4. Dog Guard.** Plastic-coated steel dog guard turns the cargo area of an estate into a "kennel-on-wheels". The guard can also be used to prevent luggage being thrown forward when braking hard. Fitting behind the front or rear seats it can be easily installed or removed. (283233-5).

**5. Cargo Mat.** Black, acid- and fire-resistant mat protects the floor of the cargo area from damage. Fluted finish helps prevent the cargo sliding. (283539-5).

**6. Caravan Shock Absorbers.** Re-inforce the rear suspension when towing or carrying heavy loads. Fit in pairs (supplied singly). (283088-3).

**7. Caravan Mirror.** Quick and easy to fit to either wing without drilling the bodywork, the Volvo caravan mirror affords an excellent and stable rear view. (284525-3).

**8. Caravan Spoiler.** Roof spoiler for caravanners. Ideal for all cars but especially for Volvo estate cars. Wind tunnel tests show the wind resistance of the whole rig is reduced by about 28% because of the more aerodynamic line. Directional stability is also improved. (Spoiler 1128898-2, carrier 1129657-1).

**9. Levelling Systems.** Maintain the car's normal level, comfort and stability even when towing or heavily loaded. Choice of two: "Finger-tip" dash-controlled system or "Manual" system operated via a compressed-air line. ("Fingertip" 283631-0; "Manual" 283632-8).

**10. Load Carrier.** Plastic-coated steel tubing with strong gutter attachments. (2 of 1129657-1). Can be complemented with ski-holders (283278-0) and/or extension rails for wide loads (283277-2).

**11. Saloon Roof Rack.** A smart, strong rack of aluminised steel tubing with steel profiles treated with epoxy rust inhibitor. Quick-action gutter attachments. Load platform 40" x 38 1/2", weight just over 14 lbs, capacity 165 lbs/75 kg. (1129635-7).

# THE SPORTS CAR

You may not think of a Volvo as a sporty car, but in terms of handling and road holding Volvo ranks with the best. The precise rack and pinion steering; the anti-roll bar; the ideal weight distribution between front and rear axles; all these factors combine to give the Volvo 240/260 series cars their exceptional handling characteristics.

You can discreetly emphasise the sporty side of your Volvo with the accessories fitted to the car you see here.

**1. Spoiler.** Made from flexible, heavy duty plastic the spoiler, for DL models only, brings improved stability and performance. Available in black only.

**1. GT Shock Absorbers.** Gas-filled shock absorbers provide increased stability without reducing ride comfort. Should be fitted as a set of four. (Front 1128793-5, rear 1128794-3).

**2. Rectangular auxiliary lights.** Complete kits of rectangular fog or spot lamps including halogen bulbs, switch wiring and fitting brackets (foglights 1129281-0, spotlights 1129280-2).

**3. Bumper Stripes.** Self-adhesive bumper stripes reflect light at night. Complete set for front (white) and rear (red). (1129633-2).

**4. GT Wheel.** "Turbine" style, 20 spoke light aluminium alloy wheel reduces unsprung weight and increases brake cooling. 5 1/2J x 14". (1128493-2).

**5. Round Auxiliary Lights.** Complete kits of round 186 mm fog or spot lamps including halogen bulbs, switch, wiring and fitting brackets (with anti-vibration struts). (Fog lamp kit 1129277-8, Spot lamp kit 1129276-0).

**6. Stripes.** Smart, self-adhesive, "coach-line" style stripes with optional model number motif included in the kit. (Brown 1129246-3, silver 1129247-1, red/blue 1129248-9).

**Auxiliary Instruments.** 1981 models have provision for up to four extra 52 mm instruments in the dash board. The instruments are ideally positioned to give you valuable additional control information and are fitted using either a 3-instrument panel or a one-instrument panel. Illustrations are as follows.

**7. 3-instrument panel** (1129662-1) containing Oil Pressure Gauge, 240s only (1129315-6), Voltmeter (1129314-9) and Ambient Temperature Gauge (1129311-5).

**8. 1-instrument panel** (1259730-8) containing Vacuum Gauge (1129312-3).

**9. 1-instrument panel** (1259730-8) containing Oil Temperature Gauge, 240s only (1129316-4).

# THE LIMOUSINE

Even in its standard form, the Volvo is an exceptionally comfortable and well-equipped car. The Volvo seat is of course world-famous with its infinite combinations of position, including the renowned lumbar support. Add to this the cloth, leather or plush upholstery; the thick-pile fitted carpet; the integral front head restraints; inertia reel safety belts front and rear; the incomparable Volvo heating system; and you have all the features of a truly executive car.

And for the motorist who wants total luxury in his car, Volvo offers a range of accessories which show the world that you settle for nothing less than the best.

**1. Top Executive.** The “flag-ship” of the Volvo in-car audio range, the Top Executive offers a MW/LW stereo VHF radio with push-button tuning, unique 3 position stereo/mono selector and electronic noise suppression (ESD) combined with a top quality stereo cassette deck featuring autoreverse for continuous play, fast forward and reverse wind, track change control and Hi-C tape noise suppression device. With four built-in amplifiers and balance controls for four speakers, facility for stereo recording direct from the radio or in mono from an optional hand-held microphone, this is a set for the discerning few. (283790-4).

**2. Boot Lock Remote Control.** A control button fitted in the glove box enables you to open the boot without leaving the driving seat. (1129317-2).

**1. Box Speakers.** Double cone high-power box speakers for the rear shelf of 244 or 264 models. 20 W, 80 - 14,000 Hz. (283195-6).

**2. Air Conditioning.** Thermostatically controlled air conditioning combats heat, air pollution and humidity. Must be specially ordered with the new car as a factory fitted option. Standard on 260 GLE models.

**3. Timer for Rear Screen Defroster.** A timer which switches off the rear screen defroster after about 15 minutes to save power and wear on the heater wires. Easy-to-fit plug in system. (1129022-8).

**4. Roof Wind Deflector.** Designed to lead the slipstream past the sunroof reducing draught and wind noise. Available in smoke grey. (283982-7).

**5. Electric Windows.** Available for both front and rear windows. (Front 283595-7, rear 1128388-4).

**6. Electric Door Mirrors.** Instant adjustment via toggle switch. Anti-dazzle glass and black vibration-free frame. No drilling needed to fit. (Left 283179-0, right 283180-8).

**7. Burglar Alarm.** To protect your car the doors, bonnet and boot lid/tailgate are wired to a special siren. System can be switched off for service. (1128746-3).

**8. Alloy Wheel.** A 5 1/2 x 14 "Sunburst" design, 25 spoke polished aluminium alloy wheel. Available with a choice of small or large hub cap (supplied separately). (Wheel 1128730-7, large hub cap 1129031-9, small hub cap 1129021-0).

**9. Rear Head Restraints/Cushions/Sun Blinds/Reading Lamp.** Rear Head Restraints are available for front or rear to match the original upholstery. Sun blinds protect rear seat passengers without impeding rear view (1128304-1). The reading lamp for rear seat passengers provides good illumination without distracting the driver. (283651-8).

# VOLVO CHILD SAFETY

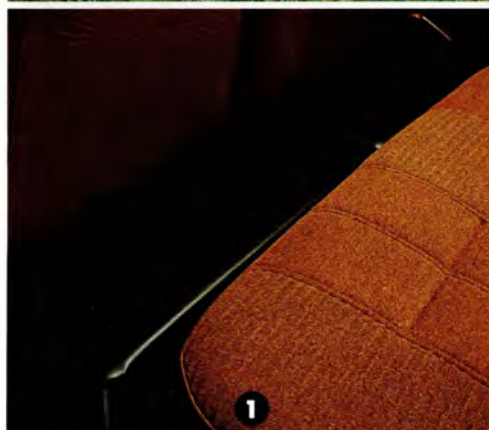

Cars are designed primarily for adults but at Volvo we believe that young children too have the right to travel in comfort and safety. That means they should always travel in a proper child restraint system. The emphasis Volvo has placed on child safety is one reason for an enviable reputation as one of the world's safest cars.

Volvo child safety equipment has been developed through years of research and thousands of special tests and experiments. Would you settle for anything less for your child?

**1. Child Bench.** Fills the gap between the front and rear seats. Enables the baby's carrycot to be positioned against the back of the front seat for safe travelling. (282441-5).

**2. Child Guard.** In certain circumstances it may not be possible to use the child restraint system, so Volvo offers the child guard. It attaches to the back of the driver's seat and prevents an unrestrained child from being thrown forward between the seats by heavy braking. (283667-4).

1, 2, 3. The tests shown here, part of a continuous and detailed Volvo child safety research programme, illustrate all too clearly what happens to an unrestrained child in a crash. In a head-on collision at 31 mph a child weighing 44 lbs will be thrown forward with a force of nearly 2 tons.

**4. Child Safety Seat.** The KL Jeenay Safety Seat, for many years the leading child safety seat on the UK market. For children from sitting age to approximately five years old (20-40 lbs, 9-18 kg). (40000844-7).

**5. Child Safety Cushion.** A product of the Volvo child safety research programme, the child safety cushion enables the six-to-twelve year old to use the standard adult three-point rear seat belts by preventing "underslide". Held in place by the seat belt. (1188206-5).

**6. Extra Rear Seat.** Turns your Volvo estate into a seven seater. The rearward facing seat, suitable for children or smaller adult passengers, is equipped with head restraints, three point seat belts and armrests. It is upholstered in easy-to-clean, fire-resistant, black or beige vinyl. When not in use it folds away under the cargo area floor. (Black 1128799-2, beige 1128439-5).

# VOLVO SOUND

Volvo Sound is a range of high quality in-car audio equipment designed by Volvo in conjunction with one of the world's leading radio manufacturers. And because Volvo car designers are also closely involved, the cars and the radios are designed to suit each other perfectly. The radios and speakers complement the car's interior trim; the amplifiers have been developed with the car's acoustical properties in mind; basic suppression is factory fitted; and installation has been made as simple and as quick as possible.

**1. MW/LW Radio.** This 5 push-button radio is ideal for areas with poor VHF coverage (1128312-4).

**2. Pillar Aerial.** This black pillar aerial gives excellent reception (1128483-3).

**3. Electric aerial.** Top quality, chrome-plated, four section electric aerial for nearside rear wing. N=B. Saloon cars only (1128858-6).

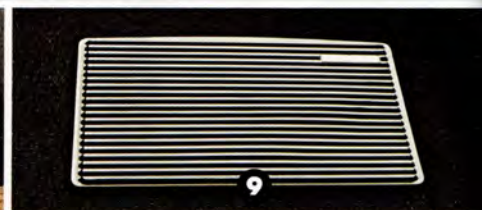

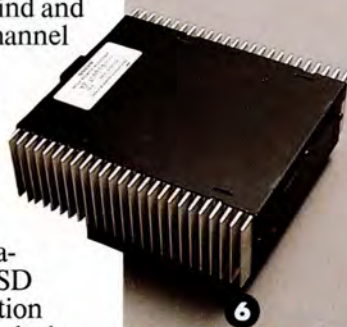

**4. MW/LW/VHF Radio.** A superb three band radio offering the quality of FM and the flexibility of AM (medium and long waves). Five push-buttons and E.S.D. (electronic suppression device). (283755-7).

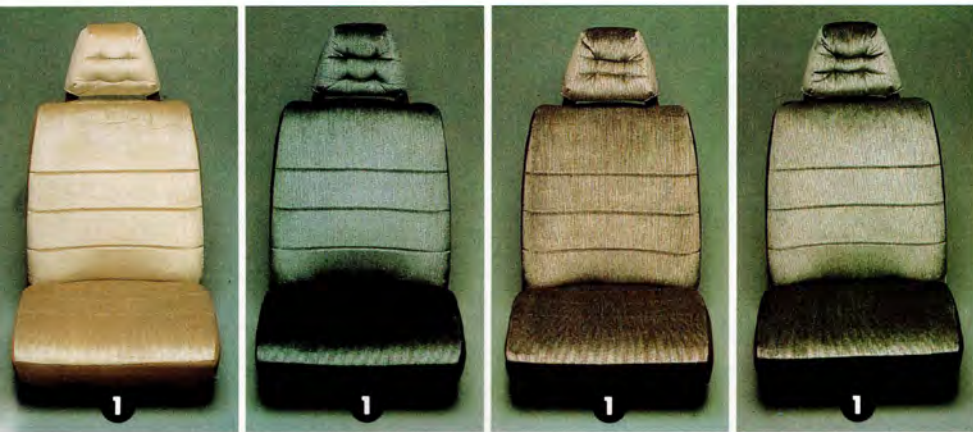

**5. MW/LW Stereo 4.** A combined unit offering a 5 push-button MW/LW radio with a high quality cassette deck featuring autoreverse, fast-forward and reverse wind and track change control. 8 watts per channel output. (1129444-4).

**6. Power Amplifier.** Gives 15 watts per channel distortion-free output for use with high power speakers. (1128703-4).

**8. MW/LW/VHF Stereo 4.** The most popular Volvo Sound unit, featuring a 3 band stereo radio with ESD on VHF and a unique Volvo 3 position mono/stereo control and a cassette deck including autoreverse, fast forward and reverse wind and track change control. 8 watts per channel output. (283777-1).

**8, 9, 10, 11. Speakers.** A selection of double cone speakers: Box (20 W) or flush-fitting (15 W) rear saloon speakers: colour-keyed estate car rear speaker (10 W): and front door speakers (15 W).

**1. Senator Seat Covers.** Volvo's range of Senator seat covers are faced with high quality, foam-backed plush material with nylon velour side and rear panels for easy fitting. Supplied in complete sets for front and rear seats in a choice of brown, beige, blue or black to complement the interior trim.

**Senator Head Restraint Cushions.** Head restraint cushions supplied in pairs for front or rear head restraints are also available to match the seat covers.

**2. Rear Head Restraints.** Rear head restraints to match the standard front head restraints are available in black, brown, beige or blue. Standard on 264 GLE.

**3. Bulb Kit.** Spare bulbs and fuses for essential lights packed in a shock-proof case. 240 Series only. (40000835-5).

**Head Restraint Cushions.** Turn the head restraint into a comfortable head rest.

**4. Plush Head Restraint Cushions.** Available for front or rear in blue, brown or beige to match the original upholstery. Supplied singly.

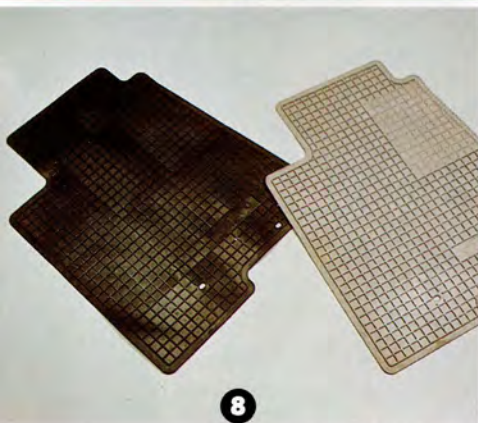

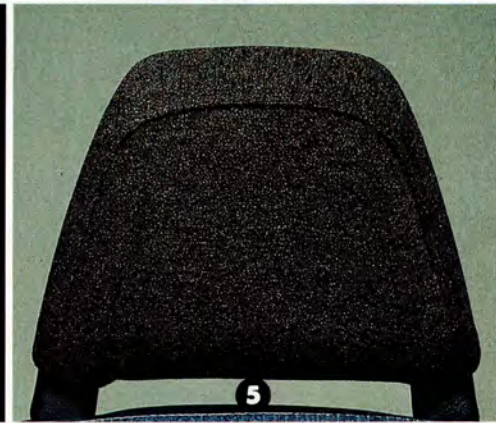

**5. Cloth Head Restraint Cushions.** Available for front or rear to match the original upholstery. Supplied singly.

**6. First Aid Cushion.** Contains a comprehensive first aid kit. (1575501-0).

**7. Injection-moulded Floor Mats.** Injection moulded thermoplastic mats. Their raised edges prevent dirt and water getting under them and their tailored fit and spined base effectively anchor them in place. Supplied in complete sets for front and rear in a choice of black, blue, beige or brown to complement the interior trim.

**8. Floor Mats.** An alternative to the injection moulded "tray type" floor coverings, these flat thermoplastic mats are tailored to the shape of the floor well and can be anchored using the studs in the floor of the car. Available in black or grey.

**9. Boot Mat.** Protects the original carpeting. Divides down the middle for easy fitting and removal. Black, acid-resistant thermoplastic. (1128444-5).

**1. Lockable Tank Cap.** To prevent pilferage or contamination of valuable fuel, fit this strong lockable tank cap. (1129012-9).

**2. Anti-skid Chains.** For improved grip on ice, snow, slush or even wet grass. Supplied in a set for one axle. (244/264 1129010-3, 245/265 1129011-1).

**3. Jump Leads.** A useful insurance in case of a flat battery. (282972-9).

**4. Boot Basket.** Ideal for keeping small items neat and tidy. (281110-7).

**5. Cargo Straps.** Straps for holding down cargo in the back of an estate car. Clip to the brackets which are standard in the car. (1129004-6).

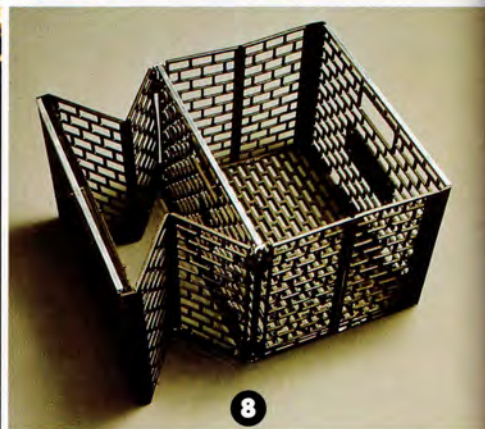

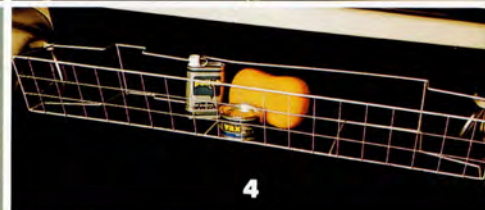

**6. Round Fuel Can.** 5 litre metal can fits neatly and securely in the spare wheel. (1128441-1).

**7. Warning Triangle.** A valuable road safety item. Fulfills European safety standards. (283343-2).

**8. Allround Box.** A versatile carry-all with innumerable uses for all the family. 20" x 14 1/4" x 9 7/8" when opened out, it folds down to 7 1/4" x 14 1/4" x 9 7/8". Voted one of Motor magazine's Top Ten Accessories for 1980. (1128721-6).

**9. Fire Extinguisher.** Highly effective extinguisher complete with pressure gauge. (extinguisher 1128797-6, refills 1128804-0).

**10. Touch-up Paint.** All Volvo colours are available for minor repairs in the form of touch-up pens and small or large aerosol cans.

In the interests of product development the specification of any Volvo accessory may be changed without notice.
