

# VOLVO

## 1971

Every Volvo is delivered in its own garage. Which is one of the reasons why Volvo has a reputation for building cars that last.

So each car gets 33-pounds and six-coats of protective and beautifying paint. After all, we're protecting our investment as well as your own.

VOLVO 142

DARK GREEN

**Volvo 142/144**

Bucket seats in the Volvo 140 Series models have reclining, contoured backrests. The seats can be adjusted for height, firmness and fore and aft movement.

Fully adjustable Volvo 142 and 144 seats are upholstered in a miracle fabric called "cloth". It's a tightly woven synthetic that dissipates heat and cold.
