VOLVO

CR 2170

AM/FM Stereo Cassette

This stereo cassette unit offers a superb combination of features and performance that makes it the best selling Volvo audio system. Designed and engineered for the specific acoustics of your Volvo, the CR 2170 offers Dolby® noise reduction, 4 x 8 watt power output, metal tape capability, a 4 way fader/balance control, high sensitivity for FM reception range, soft muting to control FM volume fluctuation, gear driven tape mechanism together with advanced electronic state of the art audio reproduction.

AM/FM Stereo Cassette Microprocessor

Utilizing microprocessor technology this AM/FM stereo cassette unit provides uncompromising services. Scan and seek, digital readout, step up/ step down (for extremely fine tuning), memory programming for six AM and six FM stations, integral balance and fader control, plus a four track cassette, with fast forward/ reverse and auto reverse.

SR 2120

AM/FM Stereo Multiplex

For the Volvo owner who requires a stereo multiplex radio, the SR 2120, when fitted with flush mounted rear speakers, has been designed and engineered to provide the ideal system. Distinctive features include multiplex stereo decoder for selective stereo reception, automatic frequency control, bass/treble tone control, stereo indicator, speaker balance control and mono/stereo selector. With an electronic suppression device to eliminate temporary interference, this fine receiver meets the needs of the most discriminating listeners.

R 2130

AM/FM Radio

Developed to provide an excellent standard monaural radio. Features push button channel selection, automatic frequency control and built-in noise suppression (to obviate intermittent disturbances) together with bass and treble controls.

Graphic Equalizer

The Volvo Graphic Equalizer adjusts audio output for specific acoustical tastes, separating the sound spectrum into five frequency bands 50 Hz;

150 Hz; 400 Hz; 2000 Hz and 10,000 Hz. Each range may be adjusted to enhance tonal quality. Easily mounts in the parcel shelf, the unit can be switched on or off to the sound system with a simple pushbutton.

Stereo Speakers

Volvo speakers have been specifically designed and engineered for balanced response within your Volvo's interior to eliminate undesired resonance.

Front Door Speaker Kits include two speakers and all necessary installation hardware. Surface mount design.

10 Watt Front Door Speaker Kit — fits behind color-coordinated open baffle grilles. Clear, accurate sound is assured with these durable speakers.

20 Watt Front Door Speaker Kit — high compliance foam surrounding the speaker cone makes production of low distortion bass possible. An aluminum dome helps disperse high frequencies evenly. Fitted with silver-accent, black open-mesh grilles for maximum acoustic transparency. (Available to replace standard color coordinated grilles)

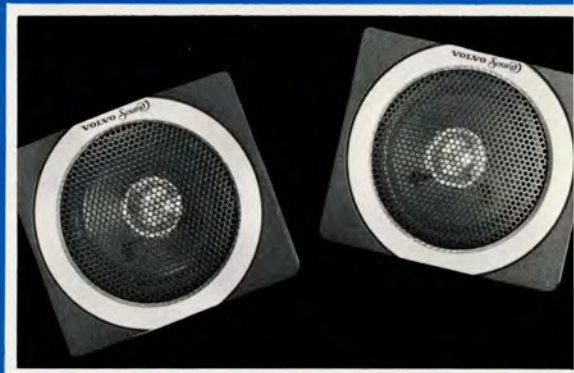

Rear Speakers

Deluxe Stereo 20 Watt Rear Box Speaker — self contained 2-way speaker system. Designed for surface mounting on the rear shelf in sedan models. Rugged black ABS cabinet contains a matched 4½" woofer keyed with a separate high efficiency midrange. This system provides maximum stereo separation and smooth response.

15 Watt Rear Flush-Mount Speaker Kit — excellent audio reproduction is afforded by these 4½" flush-fitting speakers. Designed for mounting on the rear shelf of all sedans.

20 Watt Rear Wagon Speakers — mount flush in color-coordinated rear side panels of Volvo station wagons. Black open-mesh grilles similar to those installed on 20 Watt Front Door Speakers.

Note: 20 Watt Speaker Kits are recommended for all high output, power booster, and equalizer audio system applications.

AUDIO SYSTEM RECOMMENDATIONS

Antennas

Available in a wide range to suit your particular preference: Combo AM/FM/CB Power Antenna, Electric Power Antenna, Retractable Black Fender Mount, Black A-Post Antenna. Combination CB AM/FM Power Antenna — offers optimum reception on both CB and AM/FM bands.

Power Antenna — automatically retracts and extends when radio or ignition is turned on or off. Retractable black fender mount antenna manually retractable for sedans to provide maximum reception and security. Key provided. Black A-Post Antenna — our most economical yet unobtrusive AM/FM antenna. Utilizes front A-Post for excellent stereo reception.

Power Booster

Provides distortion-free sound at any volume. High power amplifier increases the audio power of your car stereo. 40 watts (20 per channel) of distortion free sound in a compact package.

Cassette Deck Cleaning Kit

The best possible sound reproduction from a cassette requires a regularly maintained tape head. This kit cleans the tape head, capstans, and non-accessible areas effectively with soft cotton tapes which will not damage the tape head. Included in the kit are: anti-static fluid; Cassette #1, for use with the anti-static fluid; Cassette #2 for dry buffing.

VOLVO AUDIO SYSTEM I

Installed Price _____

	Part Number
AM/FM Stereo Cassette Microprocessor w/elec. tuning	1129524-3
20 Watt Front Speakers with Custom Grilles	1129596-1
20 Watt 2-way Rear Box Speakers (sedans)	283195-6
20 Watt Rear Wagon Speakers	According to Color
AM/FM Power Antenna (sedans)	1129937-7
Black A-Post Antenna (wagons)	1128483-3
Graphic Equalizer	1129458-4
Tape Head Cleaner Kit	1129476-6

VOLVO AUDIO SYSTEM II

Installed Price _____

CR2170 AM/FM Stereo Cassette	1129900-5
20 Watt Front Speakers w/o Custom Grilles	1129529-2
20 Watt 2-way Rear Box Speakers (sedans)	283195-6
20 Watt Rear Wagon Speakers	According to Color
AM/FM Power Antenna (sedans)	1129937-7
Black A-Post Antenna (wagons)	1128483-3
Graphic Equalizer	1129458-4
Tape Head Cleaner Kit	1129476-6

VOLVO AUDIO SYSTEM III

Installed Price _____

SR2120 AM/FM Stereo	1129910-4
10 Watt Front Speakers w/o Custom Grilles	1129599-5
20 Watt 2-way Rear Box Speakers (sedans)	283195-6
20 Watt Rear Wagon Speakers	According to Color
AM/FM Power Antenna (sedans)	1129937-7
Black A-Post Antenna (wagons)	1128483-3
40 Watt (2x20) Power Booster	1129463-4
Fader Control	1129461-8

VOLVO AUDIO SYSTEM IV

Installed Price _____

AM/FM Stereo Cassette Microprocessor w/elec. tuning	1129524-3
20 Watt Front Speakers w/o Custom Grilles	1129529-2
