# VOLVO 74

Choose from this wide variety  
of custom-built accessories  
for your 1974 Volvo...

#### TRUNK ORGANIZER

Our new trunk organizer conveniently fits over the spare wheel well cover, and is big enough to neatly store and organize all the odds and ends which collect in the average trunk.

140/164

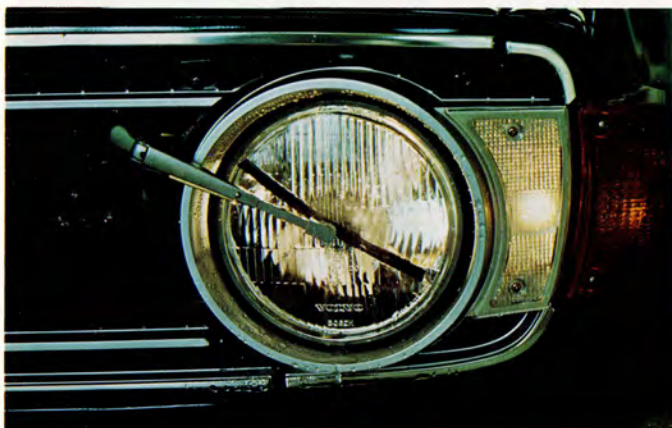

**ADJUSTABLE SIDE VIEW MIRROR** With the new mirror, you may conveniently and safely adjust the mirror from inside your Volvo.

140/164

**LOCKING GAS CAP**  
With the ever present talk of gas shortages and price increases, every Volvo owner will want the security provided by our new locking gas cap.

140/164

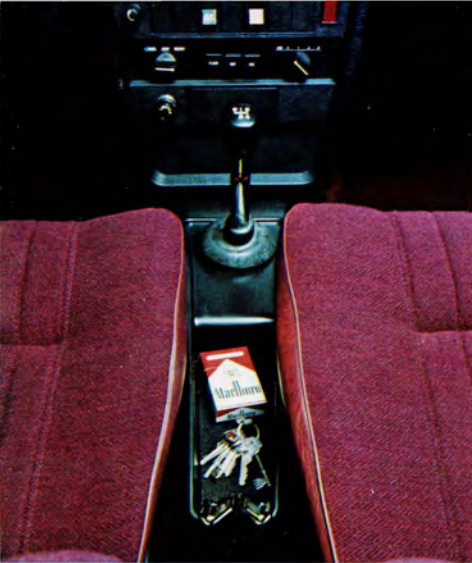

**HEADLIGHT WIPER-WASHER** A sensible safety accessory which keeps your headlights clean in the dirtiest driving conditions.

140/164

**RECTANGULAR LAMP KITS** Volvo's new rectangular lamp kits not only help you light your way, when extra help is required, they are also very attractive when not in use, thanks to their handsome black lens covers.

140/164

**RETRACTABLE ARMREST** When not in use, the armrest conveniently folds up, out of the way, between the front seats. 140/164

**TUNNEL CONSOLE** Tunnel consoles have always been a very popular accessory, as they are perhaps the most convenient item a Volvo owner can have. 140/164

**BUMPER OVERRIDERS** Volvo's custom fitting bumper overrides offer additional protection against body damage, while adding to the overall appearance of the car. 140/164

**REAR CHILD SAFETY SEAT** The seat meets and exceeds all government motor vehicle safety requirements, is of one piece construction, and features an energy absorbing impact pad at the front of the seat. 140/164

**TRAILER HITCH** The 1974 Volvo trailer hitch has been custom engineered to safely fit all 1974 140/164 models.

**AUXILIARY REAR SEAT** A favorite with the station wagon family man. The seat features head restraints and seat belts, and folds under the floor when not in use. 145

**H4 QUARTZ IODINE HEADLAMPS** A revolutionary quartz headlamp in that only one quartz iodine bulb is used for both high and low beam. Greatly extends the reach of both
