

VOLVO 240
SERIES
ACCESSORIES

More comfort and refinement

The Volvo 200 Series range of accessories has been designed to further enhance the already exceptionally high levels of comfort, safety and performance of your Volvo.

We believe the accessories featured in this brochure provide a range of options capable of satisfying even the most discerning of individual requirements.

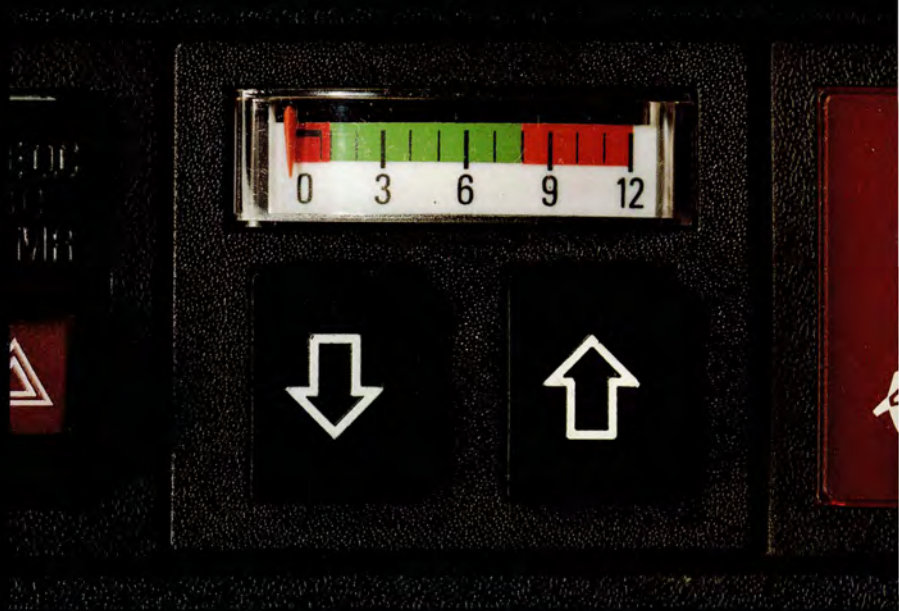

1. Suspension Levelling System

Lifts the rear suspension of the car to normal level despite a trailer or heavy load. Three versions available:

Air-charged type via nipple in luggage compartment; in-built compressor with control buttons on instrument panel; or a version which automatically adapts the suspension system to the load carried or towed by the car.

2. Central Locking System

A practical accessory for maximum passenger safety, convenience and car security. Four doors lock or unlock simultaneously as well as rear hatch in wagons either by door lock button or key operation.

3. Volvo Ultrasonic Car Alarm

It is frustrating, inconvenient and costly to have your car stolen, even if you are insured.

For peace of mind and the ultimate in car protection no one can get past the Volvo Ultrasonic Car Alarm System. It includes an electronic remote control key, radio alarm module, remote siren module with battery, ultrasonic module, ultrasonic detectors, dash warning light and boot, bonnet and emergency stop switches.

4. Automatic Boot Release

Convenience at the push of a button. Just the thing for supermarket pickups in wet weather! The electronic control button is concealed in the glovebox to prevent accidental activation.

5. Driving / Fog Light Systems

Everything that is needed for maximum lighting efficiency and safety.

Rectangular driving lights give added reach and complement the main beam pattern, whilst the fog lights improve visibility in fog, and just as important, enable your vehicle to be seen more clearly.

6. Weathershields

Improves interior ventilation by directing air-flow around the open window. Available for driver and passenger doors.

7. Wagon Rear Ventilation Fan

Increases air circulation through the passenger compartment. Improves heating efficiency in winter cooling in summer and demist effectiveness. Quiet 3 speed fan with dash mounted control switch.

8. Reflective Bumper Stripes

These self adhesive reflective bumper stripes make the car easier to observe after dark and in conditions of poor visibility.

White stripe for front, red for rear. Perfect fitting, excellent adhesion, and cannot be damaged by conventional types of car wash.

9. Child Seat

Approved by all Australian Safety Authorities to provide additional seating for two children. Includes integrated head restraints, arm rests and three point lap sash seat belts. Ingenious design folds down into existing space in wagon cargo floor when not in use.

10. Sedan Rear Speakers

Maximise your listening pleasure. Designed to fully integrate with Volvo audio systems. Accoustically matched to Volvo interior for optimum balance and sound distribution. True Hi-Fidelity stereo at its very finest.

11. Wagon Rear Speakers

Extends superb stereo performance and quality of sound to rear compartment. Accoustically matched to wagon interior for optimum balance and sound distribution. Mount unobtrusively in side panels behind rear doors.

More versatility and convenience

1. Headlight Guards

There is no need to say too much about the hazards of flying stones and gravel on Australian roads. Designed by Volvo for Australian conditions, the Headlight Guards not only protect lenses against breakage, they also are elegantly styled to blend with the smooth contours of the headlight configuration.

2. Locking Fuel Cap

Eliminates the risk of fuel theft or fuel tank contamination. Smooth locking action with corrosion resistant barrel.

3. Textile Floor Mats

The ultimate in removeable floor mats. Beautifully matched to interior trim colours and moulded to fit snugly into floor pan areas. Volvo logo woven into fabric with additional matching heel pad on driver's side. Waterproof backing prevents moisture penetration. Available in sets of four.

4. Wagon Floor Mats

Designed to protect the original upholstery in the cargo floor area. Kept in place with velcroband for easy removal. Can also remain in position when rear seat is in use.

5. Driving and Fog Light Guards

At last an auxiliary light guard that permanently protects your lights. No more stopping every time you need additional lighting. Designed to match headlight protectors.

6. Volvo Beauty Box*

Contains Car Washing Fluid, Protective Polish, Windscreen Washer Additive and Velour Fabric Cleaner. All specially formulated and recommended to keep your Volvo in top condition.

*Volvo car care products can be purchased separately..

7. Towbar

Unobtrusive and functional. The entire assembly is galvanised with a chrome-plated tongue. Engineered to provide the correct coupling height for good balance and trackability.

8. Automatic Transmission Oil Cooler

Helps to maintain the transmission oil temperature at an acceptable level under extreme operating conditions such as heavy towing or sustained fast touring speeds during very hot weather.

9. Sedan Boot Mats

Protects upholstered boot linings from excessive wear or damage. Moulded in two sections for ease of handling or storage when not in use. Made from black fire resistant thermoplastic.

10. Coloured Floor Trays

Colour co-ordinated to blend with the interior trim of your Volvo. Well designed raised edges contain dirt and liquids preventing soiling of carpets. Moulded to perfectly fit floor pans and easily removed for cleaning. Colours: Black, Brown, Beige, Grey and Blue.

12

11. Cassette Storage Compartment

Protects and holds up to eight cassettes. Fits neatly into accessory compartment of dashboard placing your favourite tapes within easy reach.

12. Wagon Roof Rack

A functional and attractive roof rack, aerodynamically designed reducing drag and wind noise to an absolute minimum. Finished in a durable mat black or chrome. Recommended for light well distributed loads.

More performance and safety

1. Gauges

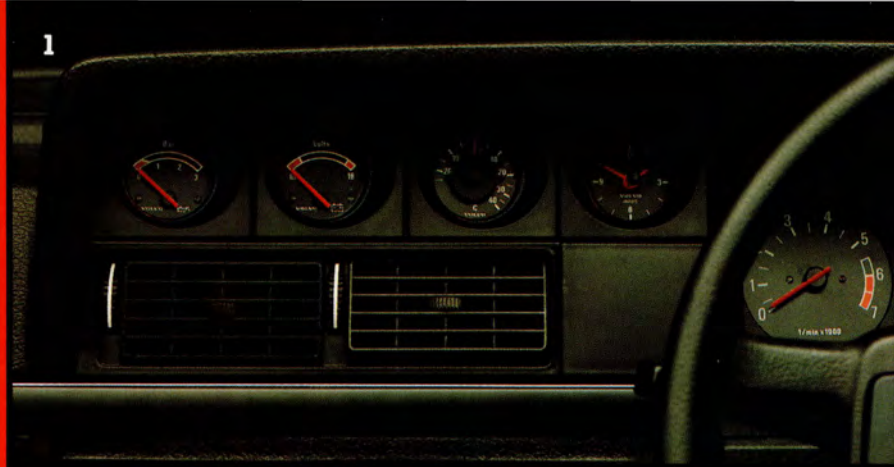

Volvo gauges keep you fully informed about key vehicle functions at all times. Voltmeter, Vacuum Gauge, Oil Pressure Gauge and Oil Temperature Gauges are all available separately.

2. Rear Spoiler

The rear spoiler further improves the aerodynamic characteristics of 240 sedans. At higher speeds air deflection is significantly improved by up to 3%. Beautifully moulded in semi-hard polyurethane to blend smoothly with the rear profile of the car.

3. 'R' Sport Steering Wheels

An exclusive steering wheel bound in the finest quality leather. Beautifully detailed and balanced to give a feeling of true luxury combined with a positive feel. Approved to the highest standards of safety design under crash test conditions. Available in Black Leather, Black Suede, Beige, White and Red.

4. GT Alloy Road Wheels

A popular wheel that combines beautiful finish and appearance with genuine sports performance. Volvo GT Road Wheels decrease unsprung weight by a hefty 11.2 kilograms resulting in better balance and reduced wear. This is further enhanced by the true roundness of precision machined rims. Maximum side throw is 0.5mm and maximum radial throw is 0.6mm.

5. Low Profile Alloy Wheels

A striking five spoked alloy wheel designed for harmonious running with low profile 195 HR/60 x 15 tyres. Near perfect balance is achieved with equal weight distribution and machined rims. Exceptional standards of driving stability in wet or dry conditions particularly when cornering. Weight 7.6 kilograms. Maximum side throw 0.5 mm. Maximum radial throw 0.6 mm. Available in a range of colours.

6. Classic Alloy Wheels

A very refined aluminium wheel with 20 fine spokes. A very strong wheel designed to reduce radial throw to an absolute minimum for smoother vibration free running. At 6.5 kilograms it is also very light. Approved to the highest Volvo standards. Hubcaps are purchased separately.

7. 'R' Sport Alloy Wheels

A superb wheel for improved appearance and practical performance. The open spoke configuration allows for a super light, beautifully balanced and strong wheel. Available in four combinations of colour and polished alloy; Black, Red, White and Bronze.

8. 'R' Sport Seat Covers

Not just ordinary seat covers but designed for the true enthusiast looking for extra support comfort and an exciting sports appearance. Fabricated in finest quality synthetic suede and corduroy for hard wearing practicality. Colour fast and flame resistant.

Complete sets available for front and rear seats in Marine / Medium Blue (illustrated), Beige / Brown and Black / Red. Matching head restraint cushions are also available.

9. 'R' Sport Handling Kit

For the driver who requires the ultimate in stability and road holding performance. Gives a firmer ride without serious compromise of comfort.

10. Locking Wheel Nuts

A sensible precaution against the theft of alloy wheels. Supplied in sets of four with two locking tools.

11. Sunburst Alloy Wheel

This elegant 25 spoke polished alloy wheel has been designed to enhance the appearance of any new Volvo. In addition this light weight (6.8 kilogram) wheel is extremely strong and enhances roadholding and braking efficiency. Designed for absolute minimum side and radial throws. Available in a range of colours.
